Putting Up First Cutting Alfalfa Hay at Umapine

(East Oregonian Special.) UMAPINE, Ore., June 6.—This week sees most of the alfalfa ranchers of this vicinity at work putting up their first cutting of hay and in some places the crop is very light owing to continued cold weather of the past month. Most of the farmers are combining their crews and what extra help is needed is easy to get at this cutting. Three dollars a day is the wages paid to help with higher amounts to stackers. Umapine had a wedding this week when Lillian Robertson was married to Clarence Pershall of this place. The ceremony took place in Walla Walla, Rev. J. Pershall officiating. In the evening supper was served at the home of Rev. Charles Dickson of Umapine, uncle of the bride, at whose home she has lived for many years. Those present were Mr. and Mrs. Ray Pershall and family, Rev. and Mrs. J. Pershall, and Rev. Charles and Mrs. Dickson. The bride wore a gown of white satin. The young people will make their home over on the Eureka flat for the present. Cliff Kinney this week purchased a Baby Combline and brought the same to his ranch west of Umapine. Miss Zella Hoon leaves Saturday for Early, Ore., where she will be the guest of Mrs. Roy Phillip, formerly Myrtle Sneave, teacher at the Hudson Bay school.

COLLEGE BOYS TO FIGHT ON FARMS

(By United Press) WASHINGTON, June 6.—The American college student is going to help fight Democracy's battle on the farm this summer. Thousands of students in institutions from every corner of the country already have enrolled in the United States Public Service Reserve and colleges are steadily asking more enrollment cards. Officials of the employment service hope the total enrollment will reach 25,000 before the summer vacation begins. Many colleges are closing early and will reopen later than usual in the fall in order that the men who are engaged in the all-important work of raising food may not have to miss any of their class work. The University of Pittsburg sends this message: "Our whole effort is toward this goal—every student in the government service for five months." Wisconsin university is trying to enroll every available man, and California expects to enroll at least 2000. Texas Agricultural college is expecting to send large groups of its students to Wisconsin and Kansas wheat farms.

THE INVISIBLE BIFOCAL

Think of the convenience in being able to see near and far without changing your glasses. The smooth, clear surface of KRYPTOKS (pronounced Crip-tok) are entirely free from the distorting, age-revealing lines, seams and shoulders of old-fashioned bifocals, and consequently cannot be distinguished from single-vision lenses.
