Daily Chats With the Housewife

It's not the individual soldier

Of every bloomin' soul
—Kipling.

The grain corporation reported to the Food Administration the other day that heretofore Oregon had been able to load all her newly launched ships with wheat or flour for their maiden voyages through the Panama canal en route for service at the front but after June 15, unless sufficient flour is turned back from dealers and consumers for the purpose, the newly finished ships cannot do this. It may be only a half or a quarter of a sack in the bin but "many littles make a lot."

Here are some suggestions for avoiding the use of flour and some recipes which employ substitutes.

No Yeast Bread.
Instead of it quickbreads made of cornmeal, corn flour, rice flour, oatmeal, barley, or other substitutes which you have in your locality.

Potatoes—Rice, hominy.
No macaroni, spaghetti or other wheat paste. (Substitute hominy.)
Thicken gravies and sauces with rice flour, corn flour, corn starch.
Use breakfast foods made of corn oats, rice, barley—none with any wheat flour in them.
Cakes made of barley, rice flour, corn flour, potato flour.
Desserts of cornmeal, barley, potato flour, rice, tapioca, gelatin, milk, fruit.

Indian Pudding.
4 cups milk (whole or skim.)
1-4 cup corn meal.
2-4 teaspoon salt.
1 teaspoon ginger.
1-3 cup of molasses.
Cook milk and meal in a double boiler 20 minutes; add molasses, salt and ginger. Pour into greased pudding dish and bake 2 hours in a slow oven, or use your fireless cooker. Serve with milk. This makes a good and nourishing dessert. Serves six.

Gingerbread.
1 1-2 cups barley flour.
1-2 cup molasses.
1-2 cup milk.
2 teaspoons baking powder.
