FAITH INDESTRUCTIBLE

The World is shaken to its core
With all the horrors that of war
The mountain trembles and the vale
Shivers beneath the iron hall,
But mid the tumult of the scene
My heart and soul remain serene,
And undimmed I face the light
Since naught can shake my faith in Right.

ROAST THE CAUSE, NOT THE CURE

THE Portland Journal refers to the Walla Walla grange incident as a sign of social disintegration. It was such but the disintegration was on the part of those upholding the Non Partisan League bolshevik program, not on the part of the Walla Walla citizens who by legal and orderly methods brought that meeting to a close.

There is room for distrust of those who back the Non Partisan League. On the night of April 26 the state organizer of the league in North Dakota

had a two hours conference with an organizer for the league at Winlock, Wash. His instructions were heard by four people who have made affidavit as to the facts and they are highly damaging, to say the least. The men making the affidavit say that the league organizers aside from being disloyalists are plain rascals, that they are organizing a system of bolsheviki in the guise of a farmers' league and that the ultimate object is revolution.

This is not the time for such stuff. Those who try to throw our country into turmoil while we fight for principles that are dearer than life itself may justly be viewed with suspicion.

Newspapers dealing with the subject of social disintegration will do well to censure the cause, not the cure.

THE GOLDEN STAR

A black arm band, with a gold star, has been recommended by the Woman's Committee of the Council of National Defense, to be worn instead of mourning by American women who have lost members of their family in the service of the country. This action of the committee at this time is prompted by a feeling on their part that we should determine beforehand the attitude we are to take toward the inevitably growing death roll of the defenders of our country. The wearing of such insignia will, they feel, express better than mourning the feeling of the American people

that such losses are a matter of glory rather than of prostrating grief and depression. President Wilson has approved the resolution of the Woman's Committee in a letter to its chairman, Dr. Anna Howard Shaw.

THEIR CLOTHING READY

REP. OLNEY, of Massachusetts, during the debate on the army appropriation bill, made this pleasing revelation to the house: "Questions naturally arise in our minds with respect to the clothing of the army. Are all men now in the service fully equipped? The latest from the quartermaster department is that they are fully equipped. Are they fully equipped as they go into the service? They are fully equipped as they have gone into the service, and there is a reserve supply for every soldier in uniform today of from two to three months. It may interest the house to know that provisions have been made at all of the cantonments to provide clothing for 233,000 men going into the cantonments between now and the first of July and a full outfit is now awaiting the men at the camps.

"Some of these items may interest the house, such as shoes. The total purchases to May, 1918, of field shoes were 13,863,000 pairs; marching shoes, 11,310,000 pairs. Of the original orders for 21,000,000 pairs of shoes, 18,000,000 pairs of shoes have been delivered."

Senator Johnson disgraces his own intelligence with his laments about our turning to autocracy because General Wood was not sent to France. The explanation has been made that Wood was not sent abroad because General Pershing, our commander over there did not want him. That should be sufficient. If our commander in France had to select his generals with a view to pleasing all political factions and spouters in congress we would be in a sad way indeed.

Each succeeding drive by the Germans on the west front carries less punch with it; the kaiser's manpower is running low and the war from an American standpoint is scarcely started.

The Italian boats nailed two big ones.

Encore, Jupe.

They found the stream inhabited by myriads of small trout and contented themselves with 355. The doctor landed the finest beauty of the season a mountain trout, 14 inches in length.

Miss Martha Mallock of Heppner, in visiting friends and relatives in this city:

The following young gentlemen were admitted to the bar of this state by the supreme court, in session at Pendleton: E. G. Bronaugh, W. W. Brotherton, Sidney Fox, T. P. Wagner, J. C. Rutanic, R. C. Wright, John U. Smith, L. A. McNary, E. O. Potter, E. M. Bratton and E. F. Miller.

A trivial, though exciting case was tried at Weston Monday. M. C. Brown and John Hubbard brought the complaint against Constable J. M. Stamper, M. J. McDaniel and T. G. O'Brien, the charge being malicious injury of property. The accused had pulled a staple from the door of a cabin.

J. J. Jackman shipped 10 carloads of sheep and horses to Chicago markets.

REALTY TRANSFERS

Deeds.

Walter Farr, Admin. to J. W. Bloom, \$205, SE 1-4 and SW 1-4, section 12, Township 3 north, range 23.

Joshua Hopper to Wm. Slusher, \$500, E 1-2 section 6, township 1 north, range 20.

U. S. OFFICIALS IN ALLEGED SMUGGLE OF EX-CZAR GEMS

NEW YORK, June 12.—An alleged plan to smuggle into America the crown jewels of the dethroned Romanoff dynasty, valued at \$2,000,000 is believed to have been discovered by United States customs officials, it was learned here today.

Two United States government officials are under suspicion, it was announced. One is in Russia and the other arrived at an Atlantic port recently on a Danish official business and is now missing.

Two Passengers Arraigned.

Two passengers on the vessel, Vladimir Joffe and Montellier G. Kahn were arraigned before a United States commissioner in Hoboken, N. J., today for alleged complicity and were held in \$10,000 bail each for examination tomorrow.

Find \$150,000 Worth of Gems.

Federal agents are said to have located \$150,000 worth of the jewels and to be on the trail of the rest.

U. S. Seizes Poss. as Passengers.

When the Danish ship wearing American shores federal officials received information that the stones had been seized by the bolsheviks and were in possession of persons on the vessel. They met the ship before it docked and posed as passengers during the rest of the voyage. From several passengers, including a woman said to be a Russian countess, the agents received clues which led to a search of the New York home of the wife of the American official, under suspicion in Russia.

"GREAT VICTORY" DELIGHTS KAISER

AMSTERDAM, June 12.—When the Kaiser was informed of the German advance in the Olsa region he cried, "It's one of the great victories on which our strong future rests," says dispatches.

Take Care of Your Tires

America's greatest need is for ships—more ships. Every available vessel is being utilized in government service.

Many ships that have been carrying rubber from Sumatra and Brazil have been taken for active transport duty.

This will necessarily force a temporary curtailment of tire production.

So, make the most of the tires you have. Use good tires.

Take good care of them. Keep them in perfect repair. See that they are properly inflated.

Increase their mileage by careful driving. Keep out of car tracks and away from bumps. Don't scrape the curb or apply brakes too suddenly.

Get every mile your tires have in them.

Only in that way can you be assured of your car's continuous service.

United States Tires are Good Tires

National Oliver Week
June 10th to 18th
Dedicated to the Promotion of Tractor Farming

You Can Make More Profit From That Farm with A Tractor

A tractor will do the work of several horses and seven men. Eminent authorities estimate conservatively that the average tractor is the power equivalent of five men and two horses. You can easily figure the saving in operation—plus the greater advantage of getting your season's work done exactly when it should be done. It means bigger crops—therefore bigger profit to you. The owner of a tractor is not worried about the shortage of labor. He cultivates all of the land available and makes it produce the very maximum. They are today giving perfect satisfaction under many varied conditions of farm work. The well-informed farm owner buys a tractor—

—and an Oliver Plow

He knows that the Oliver Plow combined with the Tractor will enable him to get the very maximum of good plowing done. The Oliver is the most widely used tractor plow—and is backed by the world's largest plow manufacturing organization.

The combined rolling Coultter and Joiners bury all trash at the bottom of the furrow. The stop device maintains an even depth of furrow. The plow points center and level the ground first, making it possible to plow clear out to the ends of the field. There is a further advantage in the simple rope trip control by which the operator can raise and lower the bottoms from his seat on the tractor.

A Tractor and an Oliver Plow—a money making team for any farm—for YOUR farm. Get it this season here!

JERARD & TEMPLE

28 YEARS AGO

(From the East Oregonian for June 13, 1890.)

Dr. Vincent and G. I. La Dow, two of Pendleton's most ambitious fishermen, were out Tuesday along the rippling waters of Meacham creek.

"Serve Potatoes on Every Table Every Meal"

Obe the United States food administration's order for the sake of the men at the front!

New Munitions-Fuel Program Necessary

WASHINGTON, June 12.—Tremendous orders for war materials have been received from General Pershing as a result of the sudden changes in the European situation which have created a situation which requires the readjustment of the munitions and fuel programs. It is learned a super-war cabinet will consider the serious situation this afternoon in an executive session.

Free Tea For Soldiers.

More than 2,000,000 cups of tea were distributed free to soldiers at the front in Y. M. C. A. canteens last winter.

MORAL AIMS OF THE WAR

Abstract of Address by Dr. George Nasmyth at Happy Canyon June 11.

"The vital question at the heart of this great tragedy," said Dr. Nasmyth, "is this: What kind of a world are we going to have after the war?"

"Is it to be the old world of secret diplomacy, the Balance of Power and the system of international anarchy on the principal of 'Every Nation for Itself, and the devil take the hindmost?' This is what an inconclusive peace would mean—a return to the status quo ante bellum.

"If the Allies win, and they must win the war, they are determined to set up a new world order. This is the great moral aim for which the war is being fought, in order to make it impossible for such a war ever to occur again.

"The means by which this will be accomplished is the establishment of a League of Nations with a World Court, a World Congress, an International Council of Conciliation and an International Police Force to protect the small nations as well as the great against the danger of aggression.

"The League of Nations is the Palace of Humanity which President Wilson is planning as the central building in his great program for the reconstruction of the world. The other buildings are the principles, which he has proclaimed to all mankind as the objects for which this war is being fought. They are:

1. Open, democratic diplomacy.
2. Freedom of the seas to all nations who obey international law.
3. Removal of economic barriers and equality of trade conditions among nations joining the League to maintain peace.
4. Disarmament to lowest point consistent with domestic safety.
5. New colonial policies based on the interest of the populations concerned.

6. Education of all Russian territory and complete freedom for Russia to develop her own political life and national policy.
7. The restoration of Belgium, without any attempt to limit her sovereignty.
8. Restoration of all invaded French territory and the righting of the wrong done in Alsace-Lorraine by Prussia in 1871.
9. Readjustment of Italy's frontiers on the lines of nationality.
10. Autonomy for the peoples of Austria-Hungary, without dismemberment of the Empire.
11. Restoration of Rumania, Serbia, and Montenegro, with international guarantees for the Balkan states.
12. Freedom of the Dardanelles and the subject races of the Turkish Empire.
13. The independence of Poland.
14. The establishment of a League of Nations.

"President Wilson has placed before the world a vision so splendid of the new world order for which we are fighting that it has captured the imagination of the forward looking men and women in all nations. It has been adopted by the governments and democratic forces in all the Allied countries and has contributed powerfully to the winning of the war."

Mineral Bill Not Called Up.

WASHINGTON, June 8.—Efforts by Senator Ashurst of Arizona to call up the house bill permitting the releasing on a royalty basis of Indian mineral lands failed in the senate today when senators opposing the leasing of government lands objected.

"Zerolene is the Best"

Say leading motor car distributors, because the records of their service correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

Most cars are now lubricated with ZEROLENE because their owners have learned through experience that there is no better oil.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your use. At dealers everywhere and Standard Oil Service Stations.
