

# CHURCHES

**Presbyterian.**  
Two interesting and helpful services are planned for the Presbyterian church tomorrow at 11 a. m. Mr. Snyder will preach upon "God's Estimate of True Greatness." Music will be furnished by Mrs. Finch and the quartet. The evening service will be held on the main lawn. Cars will be parked in front of the Manse so that people can hear the service from the cars. The chorus choir will lead the singing from the porch. There will be two brief addresses: Harry Chambers will speak upon "The Church and the War." The pastor will follow with a brief address. Following the devotional service the choir will conduct an informal patriotic song service. The public is cordially invited to spend the evening with us.

**Methodist.**  
Summer is actually here. The church furnishes social and spiritual warmth with so much physical coolness as ordinarily can be found in a public structure. Do not neglect your better selves. Tomorrow the church school commences at 10 a. m. The pastor will speak morning and evening, continuing the series of sermons upon "Certainties of Religion." Mr. E. P. Averill will lead the Epworth League at 7. Everybody welcome.

**Baptist.**  
Morning services—Supt. Will Penland wishes every member of the Bible school in his place at 10 o'clock and urges, further, that each child and member be at the Court house on Tuesday morning, promptly at 8 o'clock. You may not be a loyal soldier, but you can be a loyal patriot.

**Church of the Redeemer.**  
Sunday, June 23. Holy communion, 8 a. m.; Sunday school, 9 a. m.; morning service, "The Church and the Average Man," 11 a. m.; evening service, "Where Does God Stand in This War?" 8 p. m.

At the morning hour Mr. Hubbell will preach the second sermon concerning the "Two Women of Revelations." This sermon will treat of "Babylon, the great harlot." ## GOVERNMENT FIXES STYLES FOR WARTIME

WASHINGTON, June 22—Clothing and shoe styles will no longer be left to the untrammelled whims of designers and manufacturers. The United States government, through the war industries board, has decided to take a hand in style dictatorship, through the necessity for war time conservation of wool and leather.

Civilian footwear and men's clothing for the next spring trade will reflect these new "influence" styles.

Women's shoes limited to eight inches in height from heel to top.

All shoes restricted to black, white and two shades of tan.

New styles in shoe lasts forbidden for six months.

Double-breasted men's overcoats and side and back straps and flaps on trousers to be eliminated.

Models of sack suits to be limited to 10.

Sack coats limited to 36 inches in length for 36 sizes, with 1-2 inches for "longs."

Top coats limited to 43 inches in length for 36 sizes and two inches more for "longs."

Length of rain coats fixed at 48 inches.

Collars limited to 1-2 inches maximum width.

in France will wear gas masks now, the men, horses, mules and even carrier pigeons already having been equipped.

The Quartermaster department announced today that as food containers are filled, they are put through a paraffine bath and hermetically sealed, so that they can be carried through a gas zone without fear that the soldiers' food will suffer harm.

As a measure of conservation which may become necessary because of the limited supply of tin, experiments with waxed paper ration boxes are being made with good results. Tests show that they meet all conditions.

## FIRST LAMBS WILL SOON BE SHIPPED

Smythe Brothers are shipping a 18-car trainload of sheep on Monday from Astoria to Idaho where they will graze until about August 1, when they will go on to the Chicago market.

The same company will also ship a train of 18 or 20 cars of early winter mutton lambs directly to Chicago from Gibbon on July 1.

These are probably the earliest mutton lambs shipped out of Oregon and are of the same breed and from the same ranges as those which, three years ago, had the reputation of being the heaviest lambs shipped to Chicago that year. They are black-face lambs of Hampshire and Lincoln cross, and are in fine condition.

The animals will be about seven or eight days en route and will probably bring record prices on the Chicago market is very high.

## MAYOR PLACES BAN ON ALL FIREWORKS

Fireworks are taboo in Pendleton this year, by order of Mayor Vaughan, expressed in the following:

**PROCLAMATION.**  
Whereas, the United States is engaged in the most gigantic conflict of the world's history, human liberty and enlightenment free government are in jeopardy; it is therefore incumbent upon all lovers of freedom and upon all men, who cherish the hope of bringing civilization and good government to conserve all the resources of the nation, in this conflict every private interest must yield to the public necessity, and we should contribute our lives and our fortunes to the establishment of an honorable and universal peace, enforceable by the nations of the earth and guarded and protected by the emblem of the republic and her inviolable arms. We should dispense with the luxuries and many of the pleasures of the past and turn our attention to the stern duties of the present.

Therefore, by authority in me vested, I do hereby prohibit the sale or use of fire works, fire crackers or any other agency that might waste or destroy property or injure or destroy the lives of the people of the city of Pendleton on the 3rd, 4th or 5th day of July, 1918.

## FARM NOTES

The grain grading school will be held in the Farmers' Union Grain Agency rooms on Court street, Pendleton, June 24, 25 and 26th.

Professor G. E. Hayslop of the Oregon Agricultural College, will conduct this school, the tuition of which is \$2 for the three days.

Every farmer should familiarize himself with grain grades and standards. Wheat growing is our business, let us get all there is out of it. The government wants every wheat grower satisfied with the grades established, which is impossible unless we familiarize ourselves with these grades and the methods of grading.

County Agricultural Agent.
