What are Good Clothes?

All clothes are good in the advertisement; and they all look good when you first see them. Of course they do; nobody would buy them if they were not good looking.

But "good" isn't the look of 'em. It isn't style only, the style's part of it. It isn't fit only; the fit's part of it. Of course, if the clothes don't fit and stay fit, you don't have much style. "Good" isn't color or pattern, however good these look to you.

The important part of good clothes is the part you don't see. Better be on the safe side and come to this store for

When you are in perfect health, and are enjoying a strong and vigorous vitality, it is then that your blood is free from all impurities. You should be very careful and give heed to the slightest indication of impure blood. A sluggish circulation is often indicated by an impaired

appetite, a feeling of lassitude and a general weakening of the system. It is then that you should promptly take a few bottles of S. S. S., the great blood purifier and strengthener. It will cleanse the blood thoroughly and build up and strengthen the whole system. S. S. S. is sold by all druggists. BRITAIN MAY HAVE TWO WAR CABINETS

LONDON, June 26.—There is reason to believe, says the civil service correspondent of the Daily Telegraph, that with a view primarily of relieving the war cabinet of an overwhelming pressure of work, it has been decided to set up a second or domestic cabinet to deal solely with home affairs.

The difficulties and drawbacks inherent in the present cabinet arrangement have been recognized for some time. They militate against the adequate consideration not only of military questions but of the scarcely less important domestic problems of reconstruction which will confront the nation when peace is declared. As these domestic questions all require thought and preparation it was found that the task undertaken by the war cabinet was too heavy and burdensome to be effectively performed.

Vienna Strikers Cry "Down With Germany"

ZURICH, June 24.—One hundred and fifty thousand strikers in Vienna conflicted with the police again Saturday shouting "down with Germany." They tried to reach the German embassy but the police prevented.

"Honey and Tar will give you ease when you start to cough and sneeze."

FOLEY'S HONEY AND TAR

DON'T wait for a cold to attack you. Fight back. Attack it. Hit first, if you can.

At the first indication of the presence of the enemy, get busy. Go right after him and keep right after him until you know positively he has retreated and gone for good.

Watch—But Don't Wait Don't be afraid of answering a false alarm. You never can tell what a cold will do when it gets a good start. So there's only good and no harm done when you stop a cold before it gets any start at all.

It is far better to take a dose of safe and harmless cough medicine when you don't absolutely need it than it is to fail to take it when you do need it. Play safe and sure. It pays to be four to one.
