Non-Fatal Injuries Quite Common.
In a booklet published by the Aetna Life Insurance Co., we find the following item: "Available statistics prove that last year in the United States 11,000,000 people received non-fatal injuries." This must include injuries not sufficiently serious to require the attention of a surgeon. People should be prepared to treat injuries of this character themselves, for most of them all that is needed is a bottle of Chamberlain's Liniment. It is excellent for sprains and bruises, also to relieve rheumatic pains.

Stomach Troubles.
When your system becomes clogged from overeating, constipation and a torpid liver, your stomach is likely to trouble you. A dose of Chamberlain's Tablets will give you quick relief. They cause a free movement of the bowels, tone up the liver and strengthen the digestion. You will be surprised when you realize how much better you are feeling a day or two after taking these tablets.

Children's Coughs and Colds.
For children's coughs and colds Chamberlain's Cough Remedy is excellent. It is prompt and effectual and contains no opium or other narcotic and is pleasant to take.
