### Yankees Fighting in Shirt Sleeves, Boche Flee "With Every Leg"

PARIS, July 26.—A young poet who led his hand in the fighting July 18 came into Paris Sunday. He belonged to a regiment which was in immediate contact with the American troops. In a conversation he said: "The fighting of the Americans was a revelation to us. They could hardly wait until the word was given to go over the top. They seemed impatient to get at the boches.

"When finally the word came, they leaped over the trenches, some of them peeling off their coats after running a few hundred meters in the great heat and fighting in their shirt sleeves."

"Anyone who has seen such a slight knows what the American army is good for, henceforth and to the end of the war. At the sight of these men, magnificent in their youth, physical force, good temper and dash, the Germans fled 'with every leg' or surrendered without awaiting the order to throw away their arms and take off their suspenders, which is the first thing a prisoner is told to do in order that he may be compelled to keep his hands employed and out of mischief. The Germans hurried toward our lines gripping their trousers, haggard and mad with terror.

# THE NASH QUAD

IT STEERS, DRIVES AND BRAKES ON ALL FOUR WHEELS.

Never in the history of the country has the farmer been so short of help with which to move his crops to market.

Never has the price of feed been so high with such justification to dispose of some of his teams and turning to Motor Power.

At the price guaranteed by the Government for wheat this year, a truck will soon pay for itself. Likewise, while it is not in use, it will not be eating up your profits.

An ordinary round trip to market with a load of grain requires all day with the team, while the farmer with a truck can make several trips; have his noon meal at home with his family as an added economy, and make his return trips to the ranch loaded each time with fuel or supplies.

The NASH QUAD with its wonderful power and ease of handling is just what you want to do all of this for you.

A demonstration will convince you.
