TO ARMS!

To arms! To arms! You that are men! Fight for the right—for Peace again. Crush the vile serpent under heel; With stern set jaws meet steel with steel. And let the German "kultur" feel We're in this war to win.

To arms! To arms! You women all! Your country sends a trumpet call. Do what you can, you may, you must— Help to redeem the world from lust. In you, our men have put their trust. Help them, this war to win.

That right shall ever conquer might— March on, brave boys, to win the fight. And put to rout those hordes in gray. While women work, and weep, and pray. That soon may come the glorious day. When Freedom's flag shall win. —Florence Scripps Kellogg.

PROGRESS VS. DECAY

GERMANISM as now existent is the deadly foe of democracy, the world over. The kaiser's whole scheme of things is based on caste. The monarch and all those of "noble" blood have a perch by themselves. Marriages between the nobility and the common people are forbidden. The army officers are not chosen as in this country, on a basis of merit, the German officers are selected from the upper classes. The German government is not based at all on the consent of the governed. The rule is by an autocracy with the kaiser as virtual dictator. It is a system that lacks in efficiency as much as in fairness. It breeds a race of mediocre people—people taught not to think for themselves, a people lacking the incentive and inspiration that comes from life in a democracy where a man has a chance to accomplish something for himself.

America prides itself that any citizen is eligible to the highest honors in the gift of the people. The washerwoman's son may aspire for the presidency. On more than one occasion boys of poor families have reached the White House. The present incumbent is one of them. Our business and industrial leaders are for the most part self made men. In other words they are men who have risen to power, not through favoritism or birth but by demonstrated ability.

The American system is sound because it is fair, because founded on the doctrine that a man should be able to reap as he has sown; it is sound because it promotes progress. The German system stunts the individual, it is unfair to mankind, it thwarts human development. It cannot hope to stand.

AMERICAN BRITONS MUST SERVE

ON July 31, the recruiting convention between Great Britain and the United States comes into force

CASTORIA
For Infants and Children
In Use For Over 30 Years
Always bears the signature of *Dr. J. C. Watson*

and the period for voluntary enlistment terminate on September 28.

During this period of 60 days, all Britons and Canadians between the ages of 20 and 44, both inclusive, residing in the United States, have an opportunity of offering their services to their own countries at a time when the services of every man are urgently needed. On September 28, the period within which they can enlist voluntarily expires and thereafter, they will be liable to draft into the United States army.

During this period, all Britons and Canadians in the United States of twenty years of age and those between 31 and 44, both inclusive, will be required to register on a date fixed by proclamation of President Wilson and 30 days after registration, they become subject to the American draft.

For 60 days, all British subjects will be exempt from the American draft and can enlist at any recruiting depot of the British and Canadian recruiting mission. Depots are located at W. 605 Sprague Avenue, Spokane, in Butte and in Great Falls. British subjects can enlist in this period, regardless of the fact that they may have taken out first United States Citizenship papers or have been classified in class one under the American draft.

PATRIOTIC ALASKA

FROM Point Barrow and Kotzebune Sound the word comes, "We're strong for the war." There is no such thing as a halfway measure with "the checkako" of the far North. Let him once express his approval of a policy and you can be sure he's all for it. Alaska is bearing her full burden of the war, and her's is no tottering support.

War funds are oversubscribed in Alaska. Returns from the third liberty loan show the Territory is 240 per cent American. This is the highest in the twelfth district, Arizona, following with 201 per cent of the assessed amount.

People in the land of the northern lights get excited over buying bonds. They go for them enthusiastically, as if they were tickets for the Fourth of July midnight ball game. At the town of Ketchikan they crowded to the banks the first morning of the loan. Five minutes after the windows opened the town had filled its quota. Fairbanks, the most remote incorporated city in the United States, took out five times its quota in liberty bonds.

Red Cross membership covers 80 per cent of the 50,000 whites, and the war-fund drive raised \$147,000—over seven times their estimated share. At the government coal mines many of the laborers have pledged generous monthly contributions to the Neujly Hospital.

Merely distance fails to daunt the ever active food administration. Alaska affixed "less" to as many days as New York City. Also there has been a strong voluntary movement to lessen the imports of food from the States. Clubs and organizations have pledged themselves to eat no meat but that of Alaskan animals. They dine on moose, caribou and mountain sheep.

28 YEARS AGO

(From the East Oregonian, July 29, 1890.)
The weather is cold in the mountains and the sojourners at Meacham while shivering around the camp fire, doubtless wish they were in Pendleton.

Pendleton has a few girls who can wrestle with a large quid of gum as easily as can a Vassar college student. A girl dropped her gum on the sidewalk today and a pedestrian who followed stubbed his toe on the obstruction and fell harking his shins.

A team belonging to Henry Eggers tore down Court street and across Main street bridge today like a pair of equine fairies, and came near colliding with a number of vehicles. They

A Stupendous AUGUST FUR SALE

Begins Monday, July 29th and Will Continue throughout the month of August, at

H. LIEBES & CO.

Furriers for 54 Years

149-151 Broadway

Portland, Oregon

Read What Appears in the FUR TRADE REVIEW

Oldest publication of its kind in the world. It quotes an announcement from a most authoritative source.

"Furs are so very fashionable that every week shows an increase in their costs. Demand is almost beyond supply. That further advances will follow seems inevitable.

"From every trade indication, the present is the most economical time to buy furs. The present assortments are unusually attractive. Early choice is an advantage."

An announcement and an event that will awaken many women to the wisdom of buying FURS now.

In spite of Rapidly Advancing Fur Prices, we will offer, now and throughout the month of August

Decided Price Reductions on Fur Coatees, Scarfs, Capes, Pelerines, Coats

Our entire and comprehensive stock of accepted models in FURS for the Fall and Winter Season is involved. The more than 54 years of Liebes' leadership in the fur trade is sufficiently convincing of the importance of this announcement.

Women will find this FUR SALE an event worth coming many miles to participate in.

FURS

149-151 Broadway

Portland, Oregon

started near College street, throwing Mr. Eggers to the ground. He sustained a few scratches.
Mrs. J. H. Parkes and family, Mrs. R. A. Saylor and family and Mrs. George Lash left today to join the Meacham campers.

Five-Year-Old Autoist Is To Help S. F. Mayor

SAN FRANCISCO, July 26.—Shades of ye old buckboard and soap box orators. Mayor Rolph has a five-year old campaigner who will drive an eight cylinder automobile to the Salinas Rodeo bearing a banner, "Rolph for Governor."
The little volunteer, said to be the youngest auto driver in the world, is Ronald Dooley, son of Ed Dooley, known in auto circles as the dare-devil handoff driver.
Little Ronald drove his first machine in public at the July 4 celebration in Santa Rosa, and will give a similar exhibition on the Salinas track.
He will campaign for the mayor throughout the principal towns between here and Salinas, and says he is particularly interested in Rolph's promise of better roads throughout the state if elected governor.

Afflicted with a German peace, this world would be no fit place to live in.

MURMAN COAST NOW IN ALLIED CONTROL

LONDON, July 27.—American and Entente forces have occupied the entire Murman coast, on the Arctic ocean, in extreme northwestern Russia. A proclamation issued by the commanders declares that coast Russian territory under the protection of the Allied powers. The inhabitants are asked to assist in resisting German and Finnish aggression.

Considerable Allied forces are now on that coast at the express request of the people living there, who are co-operating with them. More troops are being sent.
(A Washington despatch reports that as far as is known there American participation in the occupation of the Murman coast is limited to marines and bluejackets, the number of which, though not large, the censorship declines to make public. If any American troops are in the occupying force, war department officials say, they must have been sent by Gen. Foch from the large number training in English concentration camps.)

MEATLESS DAYS IN FRANCE DISCONTINUED

PARIS, July 27.—The abolition of meatless days in France after July 29

was ordered in a decree.

The restrictions on the consumption in restaurants of milk and cheese are consequently to be abandoned. Economies effected by three meatless days per week during two months have amounted to over 31,000 tons, an average saving compared with 1915, when there were no restrictions, of 2 per cent.

WIRELESS STARTS TO BUENOS AYRES

BUENOS AYRES, July 27.—Coincident with the American government taking control of the radio station here, direct wireless communication has been begun between Tuckerston and Buenos Ayres. American government officials here have been receiving messages from Tuckerston without delay.

Tuckerston is in Burlington county, New Jersey, about 47 miles southeast of Philadelphia.
The station reported to have been taken over by the American government probably is the former German thist which was powerful enough to communicate with Naumburg, the big German station in the province of Brandenburg. When Count Luxburg was handed his passports by Argentina this station was dismantled.

It had been operating under a temporary concession to enable a German syndicate to conduct experiments, and on the promise that the station would merely attempt to receive dispatches from Naumburg, and would not be used for the transmission of messages. Later it was learned that the station was sending as well as receiving messages.

CONFEE OVER JAP REPLY.

WASHINGTON, July 26.—It is learned authoritatively that Japan's reply to President Wilson's proposals regarding Russia have arrived. It is not determined whether further negotiations are necessary. Wilson is in a long conference with the state department, Baker and British Ambassador Reading.

MORE THAN EVER NECESSARY FOR ALLIES TO HAVE POLICY

PARIS, July 27.—The Temps says: "The former Emperor's death must be followed by unforeseen consequences in Russia. Hence, it is more than ever necessary that the Allies have a coherent, clear and far-seeing policy in Russia, the principles of which should certainly be in conformity to those formulated in Washington."

ALLIED GAINS IMPORTANT.

WASHINGTON, July 26.—Secretary

Baker this afternoon declared that the allies have continued to advance in certain territories, adding that while the gains were not extensive they were important.

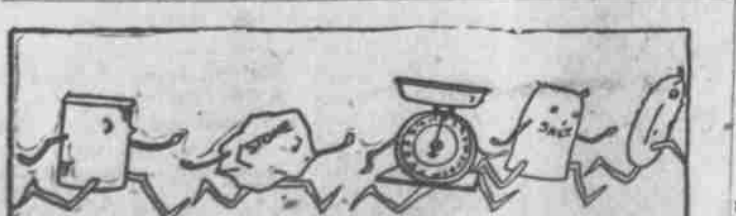

DENIES MOONEY GUILT CHARGE

WASHINGTON, July 26.—Felix Frankfurter, secretary of the Federal Mediation Commission today wired Governor Stephens branding as "wholly false" the statement that he had expressed the belief that Mooney was guilty.

THESE HUN PRISONERS OF AMERICANS ARE NOW CONVINCED UNITED STATES IS IN THE WAR

These are just a few of the Hun prisoners taken by Americans within the past three weeks and they have proof that Americans are in the war.
