INDIVIDUAL SUGAR RATION CUT A THIRD

Retailers May Replace Sugar Sold for Domestic Canning.

The new sugar order announced a few days ago by the food administration from Washington was received by wire yesterday by Dr. W. D. McNary, county administrator, from W. R. Ayer, state administrator. The new order cuts the individual monthly sugar allowance from three pounds to two pounds. The order goes into effect at once, and there will be no exceptions in enforcing it. The order will have the effect of reducing the amount of sugar which retailers, hotels and restaurants can secure for August, by one-third of the allotment previously fixed. It will have no effect upon the baker's allowance inasmuch as the baker had previously been cut down to seventy per cent of the sugar used a year ago. The state administration instructs the local administration that retailers may replace sugar sold for domestic canning by securing special certificates from the local officials. The new order also requires that the local administration shall keep a daily record of all sugar certificates issued, and report it to be sent in at the end of each week at Portland.
