ANOTHER RUSS REVOLT

The Russians in western Siberia, aided by the Czech-Slovak troops who are trying to win Russia back to the allied cause, have revolted against the Bolsheviks and set up an independent republic between the River Volga and the Ural mountains. They have captured the towns of Omsk, Samara and Novy Nikolayevsk, which gives them control of the trans-Siberian Railway, running from Petrograd to Vladivostok. The Germans have been trying to get control of this important road.

DETACHMENT FIGHTS PAST 16 MILES IN 24 HOURS TO KEEP UP

WITH THE AMERICAN ARMIES, July 30.—The biggest American advance since the Franco-American push started was carried out across the Oureq near Sergy three miles southeast of Fere-en-Tardenois Sunday morning. By squeezing the pocket on the right and left sides while thrusting northward in middle, the allies sent the boche retreating further. The Americans steadily advanced all day Sunday through heavy rain. They fought through tangled narrow paths in woods and across fields, routing out machinegun nests, and pushing on as resistance was demolished. One detachment marched and fought 16 miles in 24 hours in order to keep abreast with further advanced units on either side where resistance was lighter.

At 9 o'clock Sunday morning American machineguns were stationed on Hill 141 outside of Fere-en-Tardenois sweeping the avenues of retreat from the city. Our artillery arrived on the heights outside of Sergy, the allies completely enveloped and passed

WASH THE KIDNEYS!

All the blood in the body passes thru the kidneys every few minutes. This is why the kidneys play such an important role in health or disease. By some mysterious process the kidney selects what ought to come out of the blood and takes it out. If the kidneys are not good-workmen and become congested—poisons accumulate and we suffer from backache, headache, lumbago, rheumatism or gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed at night. So it is that Dr. Pierce, of the Invalia Hotel and Surgical Institute in Buffalo, N. Y., advises "Washing the Kidneys," by drinking six to eight glasses of water between meals and then if you will take a harmless medicine that will clear the channels and cure the annoying symptoms, go to your nearest drugist and obtain Anuric (double strength). This "Anuric," which is so many times more potent than lithia—will drive out the uric acid poisons and bathe the kidney and channels in a soothing liquid. If you desire, write for free medical advice and send sample of water for free examination. Experience has taught Dr. Pierce that "Anuric" is a most powerful agent in dissolving uric acid, as hot water melts sugar. "Anuric" is a regular insurance and life-saver for all.

Roncheres, Presses and Courmont Village after village fell to the Americans.

Two main points of resistance were encountered, Croix (farm) and the Oureq. Both were thick with machine guns. The gunners maintained fire as long as possible and then withdrew setting up guns and resuming fire until they were killed. German machinegun lines were encountered every mile and a half.
