**Pastime Today.**  
The Pastime today is offering a big double program, the chief attraction possibility if a distinction can be made is Fatty Arbuckle in his latest Paramount-Arbuckle comedy, "Good Night Nurse," a two reel laughfest, with our old friend Roscoe (Fatty) Arbuckle at his best. The other star on the program is George Walsh in the William Fox picture de luxe, "The Kid Is Clever." This feature is in six reels and also on the comedy order, and is a picture the Pastime management is more than proud to recommend. Also on this big program is the one reel war-picture, England's Polaris.

**Alta Today.**  
A bubbling, rollicking comedy featuring Enid Bennett at the Alta Theater is "Naughty, Naughty!" a Paramount picture written for Miss Bennett by C. Gardner Sullivan. The story is that of a small town girl who visits New York, comes back to her home town with the firm intention of thoroughly modernizing and metamorphosing the old-fashioned quaint ideas of the natives—especially her former sweetheart, editor of the local newspaper. Miss Bennett is supported by a splendid cast, including her younger sister, Marjorie Bennett, who makes her photoplay debut in this production; Earl Rodney, Gloria Hope and Andrew Arbuckle.

**SOLDIERS DON BATHING SUITS TO GET BOOZE**  
NEW YORK, Aug. 8.—To stamp out alleged immorality in resorts near the Brooklyn navy yard, the police early today raided a number of dance halls and detained 47 women. Army officers in an investigation of intoxication of soldiers and sailors at Coney Island, discovered that some of the men, donning bathing suits, had been able to procure drinks. Orders have been issued that enlisted men patronizing the beach resorts wear bathing suits marked "U. S."

### HERO CHOSE HEROIC MEANS OF SUICIDE

LONDON, Aug. 8.—The strain of living up to his reputation proved too much for Master George Harris. At the Guildhall recently he was bound over for 12 months, after attempting to commit suicide. Since the age of 13 this boy has had an extraordinary career of adventure. He was at Antwerp when it was taken by the Germans, escaped from there, and afterwards accompanied Serg. O'Leary, the famous Irish V. C., and attracted much notice by addressing recruiting meetings at Hyde Park and other places. Several people interested themselves in the boy, and he obtained an excellent position. He lost his situation because he was suspected of theft. The thought of his friends' disappointment weighed so much on his mind that he tried to kill himself by drinking a concoction of phosphorous match-ends mixed with vinegar and various other evil-tasting ingredients.

### MOTHER, IN MONTREAL, KILLS 4 CHILDREN

MONTREAL, Aug. 8.—Because she wanted to go to heaven and wanted her four young children to become angels, Mrs. Philemon Dupont, aged 35, turned on five kerosene lamps in a garret, poured coal oil over the floor of a room and then touched a match to her home here. She placed the children on a bed and lay down beside them. They were all killed. Mrs. Dupont left a letter giving the reason for her act and also stated she had told her husband of her intentions.

### FRENCHMAN LEAPS SAFELY OFF PLANE WITH A PARACHUTE

Captain Proves Safety Device by Gently Dropping 800 Yards.

WITH THE AMERICAN ARMY IN FRANCE, Aug. 8.—Captain Sarret, a French aviator, has carried out the first experiment on record of falling from a moving airplane with a parachute. Captain Sarret dropped 593 yards with an umbrella 12 yards in diameter and landed safely. He fell from the observer's position, but similar experiments for the pilot will be undertaken soon. The aviator crawled out of his seat and hung by his hands with the parachute firmly attached to his body and lightly attached to the airplane. When he jumped the parachute opened perfectly and bore him gently to the ground. Experiments in the past have been made with sand bags, which were cut loose at varying heights. Although Captain Sarret's trial was made at a height of 800 yards it is declared there is no obstacle to jumping a greater distance, since the parachute has a better chance to open. When successful, the employment of parachutes will enable aviators to leave their flaming machines and not meet death as did Major Raoul Lufberry, May 19. Captain Sarret was in the air three minutes after he had cut loose from the airplane. He was completely composed on landing and wrote a brief message describing his sensations during his descent.

### INVINCIBLE IS WONDER SHIP

ALAMEDA, Aug. 8.—Typifying America's indomitable spirit is the great hull of "The Invincible," which, under the spell of modern industrial miracle, evolved into completion in twenty-four days and slid into the estuary on Sunday at high noon—the world's record ship. Swarming over her great bulk like so many ants is a small army of busy workers—2500 strong—who have been since the Fourth of July, working in three shifts to complete the ship on or before schedule time. When Chas. Schwab, the steel king, was here on the Fourth he boasted that this ship could be built in thirty days. The men promised to make it in twenty-eight days, and a few days ago came the enormous feat that she would be ready for the waves in twenty-four days, three days sooner than any ship ever built. 12,000-Ton Ship. The Invincible weighs 12,000 tons. The holder of the world's record for speed in construction before was the Tuckahoe, built in the New York yards in twenty-seven days, but weighing only 4900 tons. It was the decision of the Shipping Board that the Defiance, launched from the Ala-

meda yards of the Bethlehem Company's plant on July 4, was an even better record than the Tuckahoe because the Defiance was a 13,000-ton vessel. The ceremonies of the launching were of the simplest nature.
