receive back into their employment civil workmen who have sustained permanent partial disabilities in industrial accidents in such a manner that should a subsequent injury result through which the workmen would become totally disabled, that means for compensation be evolved whereby the award would not be taxed against the general fund set aside for that purpose.

To provide a fund to make awards for disabled soldiers who may suffer industrial injuries as a consequence of disability sustained in battle, Governor Cox suggests that a fund be built up from interest on reserve funds and balances which now amount to several hundred thousand dollars annually.

In discussing the disabled soldier phase of the proposition, Governor Cox said:

"It will be very much better for us to measure in advance the almost certain evils that will befall tomorrow than to await their coming. Ohio soldiers are now engaged in active sectors in France and our casualties may return partially disabled. The state, acting for society, should give them the opportunity to render the service they are still capable of giving."

LONDON PRESS HAS G. K. FOR MESSAGE OF LLOYD GEORGE

LONDON, Aug. 12.—London morning newspapers are enthusiastic over Premier Lloyd George's message to the British people. They are unanimous that he struck the keynote of the allied object—that Prussianism must be beaten until it is impossible for it to rise.

The Kaiser told Ambassador Gerard that Great Britain is an obstinate nation," said the Mail. "She is all that and something more. She is inspired in all her obstinacy with the idea that liberty must be secured

RADICAL CHANGE OF CLASSIFICATION PLAN IS BEING WORKED OUT

WASHINGTON, Aug. 9.—Plans for radical changes to liberalize the draft regulations are being worked out at the war department, Secretary Baker said today. The secretary thought the whole plan of fixing deferred classifications would be changed to relieve the registrants of the duty of claiming or refusing exemption. The plan contemplates two divisions of class 1 men, the first composed of those between 18 and 19 and the other between 19 and 45.

OHIO PLANS INDUSTRIAL AID FOR DISABLED

COLUMBUS, Aug. 10.—Ohio is planning through its workmen's compensation law to make possible the return of disabled soldiers to their former pursuits and furnish both to the disabled soldier and his employer that financial protection which may be necessary as a result of injuries growing out of the disability received on the battlefield.

In a letter to the state industrial commission, Gov. Cox suggests that such a plan be worked out if possible without modification of the present law. If changes in the law are necessary, he suggests a survey be made to determine what alterations should be made.

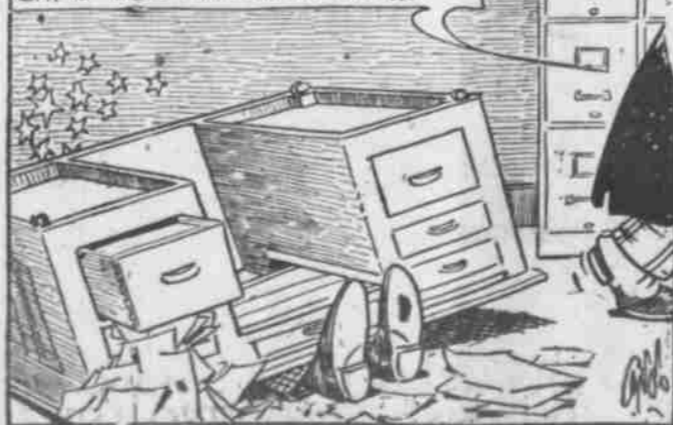

The governor also suggests that some means be worked out whereby it will be possible for employers to

FRENCH GAS TRICK OUTWITS THE HUNS

PARIS, Aug. 10.—Here's the latest story of how French ingenuity outwitted the Huns' bullheadedness and resulted in a substantial bag of Germans: On a certain "quiet" sector the French made poison gas attacks at intervals of three days, accompanying the poison gas with "stink bombs." At the correct interval they next sent over "stinkbombs" not accompanied by gas; followed these up with infantry and found the Huns calmly sitting in their trenches wearing gas masks. Nearly all were taken prisoner.

Mrs. Weinstein was riding on the

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles."

so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 6th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service. TALLMAN & CO.
