CITY HONORS WILSON
ROME, Aug. 12.—The municipal council of Arizoo has conferred honorary citizenship upon President Wilson. The population greeted the announcement with great enthusiasm.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says "glass of hot water with phosphate before breakfast washes out poisons."

If you wake up with a bad taste in your mouth and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the bowels and toxins from stomach, liver, kidneys and bowels and cleanse sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning by wash out of the system all the previous day's poisonous waste, gases and sour milt before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became hardened with body impurities, get hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.

Just as soap and hot water act on the skin, clear-up, sweetening and freshening hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.
