LATINS WOULD USE IDLE HUN SHIPS

(By United Press.) WASHINGTON, Aug. 15.—Latin America is looking with ever-growing intolerance upon the great number of idle German ships interned in South American ports, according to authoritative diplomatic disclosure here today.

Representative diplomats who are in close touch with internal conditions in the various republics admit that the interned ship problem is a vital one in practically every one of the countries that have not already entered the war and turned the much-needed tonnage into entente trade channels.

Demand for Seizure Strong. Late reports from Argentina indicate that the popular demand there has become so strong that seizure of the Teuton merchant fleet on the River Plata may be forced on the government. One ship of 6,000 tons has been sold to Argentine owners, the money being held at Buenos Aires until the close of the war. It was rumored at the time of the sale that the ship was turned over to the Argentine without cost, in payment for the torpedoed Argentine steamer "Toro" and "Monte Protégido" which the German government agreed to replace.

The United Press is able to state that the question has been raised by maritime interests in both Chile and Argentina as to whether the protection which international law affords to interned vessels is not limitable as to duration. Both republics are very much in need of additional shipping facilities, and influential forces are known to be urging that the hospitalities that has been accorded the Germans for nearly four years be revoked without further delay, upon grounds of national necessity.

"Your Magnificent Dash Upset Enemy"

WITH THE FRENCH ARMY IN FRANCE, AUG. 15.—Gen. Mangin, who was in direct command of the allied forces in the drive against the German right flank south of Soissons, has issued this order of the day: "Officers, non-commissioned officers and soldiers of the Third American Army Corps: "Shoulder to shoulder with your French comrades, you threw yourselves into the counter-offensive begun on July 18. You ran to it like going to a feast. Your magnificent dash upset and surprised the enemy and your indomitable tenacity stopped counter-attacks by his fresh divisions. You have shown yourselves to be worthy sons of your great country and have gained the admiration of your brothers in arms.

"Ninety-one cannon, 1200 prisoners, immense booty and ten kilometers of reconquered territory are your share of the trophies of this victory. Besides this, you have acquired a feeling of your superiority over the barbarian enemy, against whom the children of liberty are fighting. To attack him is to vanish him.

"American comrades, I am grateful to you for the blood you generously spilled on the soil of my country. I am proud of having commanded you during such splendid days and to have fought with you for the deliverance of the world."

MEDFORD, OREGON.—"For three or four days at a time I would suffer untold agony. It was this way for years. I doctored all the time but never got any help. A friend told me about Dr. Pierce's Favorite Prescription. I took three bottles and never had any more trouble. At another time I had terrible dizzy spells and a starry condition also; had that 'all gone' tired feeling; was nervous; and after each meal would bloom something terribly. Had indigestion so that I could hardly eat anything and my heart was affected. I again took the 'Favorite Prescription' and it cured me. It is a grand medicine and I am glad to tell others how it helped me. "The 'Pleasant Pellets' cured me of chronic constipation; regulated my bowels so that I never had any more trouble." Mrs. A. D.
