A Trial Fitting Will Reveal the Comfort of MODART CORSETS Front Laced

It is not a question of any corset—for you can find some kind of a corset anywhere.

It is the more important question of fitting you with the right kind of a corset.

Your health may depend upon it—your comfort may depend upon it—the fit of your gown surely depends upon it.

If MODART Corsets were not correctly made—if there was the slightest doubt in our mind with regard to their quality or design—we would not suggest them.

We know—and we want you to know.

A Smooth Unbroken Line in Back and Front

THE NEMO BRASSIERE Gives this desirable effect.

It's the only brassiere "invention" in existence. The laces under the arm make it entirely adjustable.

The Nemo Brassiere "FITS AS YOU FASTEN," remoulding the figure above the waist as the corset does below; gives an erect carriage and tends to relieve backache.

Models for various figures—\$1.00 and \$1.50.

Advance Fall Styles
