FREEDOM'S HONOR ROLL

All of us are talking about democracy. The soldiers whose names are printed in this casualty list have suffered or died for it. We cannot all take the same risk or undergo the same sufferings, but we can help to keep the light burning at home as they are doing abroad. What did we do at home to make the world safe for democracy? Were we inventors or patriots? These will be the questions the boys who return will have a right to ask us. How shall we answer them?

TODAY'S CASUALTIES:

Killed in action—Arthur C. Hill (Marine Corps), Tacoma, Wash. Wounded severely—George Lee-Right, Burley, Idaho. Wounded (degree undetermined)—Earl V. Osborne, Harrah, Wash. Total casualties reported this afternoon, 161, including killed in action 24, died of disease 2, wounded severely 47, wounded undetermined 16, died of wounds 9, missing in action 64.

UMATILLA COUNTY FARMERS FAVOR MAKING EMPLOYMENT AGENCY PERMANENT OFFICE

Letters have been received in Pendleton from the head officers of the United States employment bureau, inquiring of the advisability of making the Pendleton office a permanent one and asking about the work that has been done by the office since being opened here. Inquiry made among the large farmers who have patronized the agency has received the answer in every instance of the highest praise of the good work of the office during the harvest and the efficient manner in which it has been administered by Norborne Berkeley, the local agent. Asked as to his opinion of the office being made permanent, W. A. Storie, a prominent Umatilla county rancher, stated he found the employment office a great convenience; he had hired a number of men through it and is heartily in favor of the office being made permanent. Marion Jack, asked his view of the

DIPLOMATIC RELATION BREAK IS DENIED

Decision Made in Agreement With Obligation and Loyal Neutrality.

MADRID, Aug. 21.—The Ministry of the Interior today announced that Spain sent a note to Germany declaring that Spain will temporarily replace future submarine sinkings from interned German tonnage. The ministry denies rumors that Germany had broken diplomatic relations with Spain. The ministry stated its decision is but the natural, obligatory defense of our essential interests. We cannot further risk prejudicing our national dignity and life. We feel assured Germany will recognize that our decision agrees with loyal neutrality. The final status of commandeered vessels will be settled when peace is declared.

HEAVY FIRING OFF COAST SUGGESTS A U-BOAT SCRAP

AN ATLANTIC PORT, Aug. 21.—Reports of heavy firing 82 miles off the Atlantic coast, which today indicate a battle between a steamer and a submarine were brought here by captain of several fishing vessels. Captain Perry of the schooner Goodspeed reported seeing a large steamer firing at an object early yesterday. The steamer was running swiftly. He plainly saw the flash of the guns.

WHERE HAIG HIT HUNS

The new Franco-British drive was launched in the vicinity of Montdidier (Fig. 4) to prevent a German drive which Prince Rupprecht had been planning to aim at Doullens and Amiens (Figs. 2 and 3) to divide the French and British armies. The allied offensive also forestalls a German attack on Ypres (Fig. 1).

EXCESS PROFITS AND INCOME TO BE TAXED TO BILLION DOLLARS

Every Person in Country May Make Report on Amount Given.

WASHINGTON, Aug. 21.—A new revenue bill will authorize a billion dollar drive on income and excess profit tax slackers to prevent future tax dodging, and Secretary McAdoo has asked Congress for authority to force every person in the country to make income tax returns. Internal Revenue Collector Roper, addressing the House ways and means committee today, revealed these two moves. Roper assured the committee if he is given \$10,000,000 to hire a force of accountants he could collect the billion dollar sum he estimates the government has been cheated out of in two years. The committee authorized appropriations immediately after Roper's statement. Roper said coal companies are among the principal tax dodgers. Farmers are also under suspicion because only 14,000 submitted tax reports last year.

INCOME OF MOVIE STARS DRAFTED BY U. S. TAX AUDITORS

WASHINGTON, Aug. 21.—Only two percent of the nation's saloon keepers made returns. Movie stars and actors will be asked to verify gross receipts of movie salaries. Roper said it is planned to organize 20 auditing units of expert accountants, each unit to handle all companies of a given type. He said the plan to make everyone give returns applies to revenue on the same principle as is applied to the draft. Thousands, just on the income border line, are escaping because the department now has no way of checking them.

In reply the President asked Reading to express to the king in person his appreciation of the message. Reading, who recently arrived in London, took the president's message with him.

Accomplishment of Remarkable Task Shows World Scouring by Fleet Corporation.

4,000,000 PROJECT CALLS FOR SHIPS

March Declares Shortening of Line by 50 Miles Significant.

WASHINGTON, Aug. 21.—General March today announced that 32 completed divisions are now in France. He said that to accomplish this remarkable task it was necessary to scour the world for ships, while to maintain the present program and achieve the projected 4,000,000 mark would require the gathering of still more shipping. General March said the emergency fleet corporation is doing splendidly to catch up, "but the hiring and bartering of other ships is necessary to meet the increased effort." General March said it was significant that allied losses between Rheims and the sea have shortened the front by 50 miles.

25 MILE RAGE ON PARIS WAS PLANNED

PARIS, Aug. 21.—The Germans apparently when they started their last offensive were prepared to besiege Paris from a 25-mile range, says the Petit Parisien. A number of 60-foot guns firing shells weighing three-quarters of a ton were ready on railroad trucks to follow the advancing armies.

WHALING COMPANIES ARE CONSOLIDATED

VICTORIA, B. C., Aug. 21.—With a capital of \$2,250,000 the Consolidated Whaling Company, limited, has been formed, with the principal whaling companies of the Pacific coast under its management, according to an announcement made here. This action completes a deal started last spring when the Victoria Whaling Company bought the North Pacific Sea Products Company of Seattle. The other concern in the combine is the American Pacific Whaling company of Bay City, Wash.

EVERY SHOWER DOES DAMAGE TO UNCUT GRAIN IN THE FIELDS

bringing the wet weather which has now prevailed for several days to the point of danger for the wheat farmers of Umatilla county who yet have uncut grain in their fields. In some parts of the county the harvest is practically over, but in these parts there is still more or less soaked wheat in the fields, and with rains continuing nightly, as has been the case, these will also suffer more of less damage. While more than a million bushels of the 1918 crop has been moved out of the county there is probably almost as much unthreshed grain still in the fields unprotected from rain, counting the wet grain and that stacked for threshing. It is not thought the damage has been great to grain out in the weather yet, but every shower that falls on this wheat causes the wheat to deteriorate to some extent and the rains continuing have caused some of the old-timers to recall the time when Umatilla county suffered the loss of a large proportion of the crop, owing to August rains.

General Byng's Army Strikes on 10 Mile Front After Single Artillery Crash at Dawn.

WITH THE ALLIED ARMIES IN FRANCE. Aug. 21.—A double allied drive is underway in Picardy. The British opened a new attack on the wide front of the Ancre river today. The French are still smashing forward between the Oise and Aisne, increasing their menace to the Germans from Noyon to Soissons. Simultaneously, other French troops are attacking from the Oise northward to Roye. The British continue to advance, perforating enemy lines, seemingly at will and advancing at other points, the Boches retire voluntarily. Haig's men are also showing unusual activity in the Arras sector astride the Scarpa. Haig's new attack may have Bapume as its objective, 11 miles northeast of Albert. To reach Bapume would require an advance of six miles.

WITH THE ALLIED ARMIES IN FRANCE.

Aug. 21.—General Byng's army struck the Germans on a 10 mile front between Arras and Albert shortly before 5 o'clock this morning through a heavy fog. By 9 o'clock the British had captured Hoenyville, Courcelles, Bucquoy, Ablainzeville, Achiet-le-Petit and Beaumont-sur-Ancre. The attack which the Germans expected last week burst upon them through a camouflage of mist lying thick over rugged, worn battlefield, clinging to the ground, while tanks, cavalry and infantry pushed over and around trenches and new entanglements. The British made good progress before the sun suddenly broke through at 9. The Boche were cleared from most of the points on this side of high embankment of the Arras-Albert railway. A single artillery crash preceded the advance.

"PROGRESS SATISFACTORY"—HAIG.

LONDON, Aug. 21.—General Haig announced that the British attack on a wide front north of the Ancre this morning. "Satisfactory progress has been made." The attack was made at 4:45 o'clock. NIGHT OPERATIONS SUCCEEDED. Yesterday afternoon strong hostile attacks accompanied by heavy bombardments were made against our new positions south and north of the Scarpe, where they were completely repulsed. We improved our positions slightly in Farnwoy neighborhood, taking a few prisoners. "We advanced our line last night between Festubert and the Lawe river. We hold Le Touret. "Early this morning the English carried out a successful local operation in the Loere sector on over a mile front. All objectives were taken and prisoners were captured."

Attack Conditions Ideal. WITH THE BRITISH IN FRANCE.

Clear weather last evening and large crowds made the second night of the Bernatchi carnival quite a success. Special interest was shown in the wrestling matches between Ray McCarroll, the local man, and Sampson, who is with the carnival company and issued a deft to all comers. In his first match Sampson threw his man easily, a fellow named Skaylor. With McCarroll he found it a much different proposition. In this Sampson contracted to throw the local man in ten minutes. At the end of the ten minutes he had not made a start toward filling his contract. The result was that McCarroll then agreed to throw Sampson in 15 minutes and this was a real live match, with McCarroll

Aug. 21.—Conditions for the attack were ideal. No smoke barrage ever equalled the fog. Tank crews saw as far as necessary while the tanks themselves were hidden from the Germans until it was too late to make effective resistance. Two hundred prisoners were taken by 7 o'clock and some machine guns also. Big guns have been concealed in readiness for several days. They let loose and after five o'clock the troops swung into action. By 8:10 parts of the old line were passed. Moyonville, where resistance was weak was captured at 8:50. Prisoners there said they had expected the British for the past week. British casualties are slight.
