Money Left to Friends.

HOOD RIVER, Ore., Aug. 19.—The will of the late J. M. Blossom, retired student and rancher, who died here recently, is the most remarkable one ever filed in the local probate court. Mr. Blossom, who by his frugal habits

and marked eccentricities was generally thought to have owned but little property, left real estate and securities valued at several thousand dollars.

Mr. Blossom, in bequests of money ranging from \$25 to \$400, apparently forgot no one who had been kind to him, and a larger part of the document is an expression of gratitude.

EDNA B.:—

I am going to have a few friends down to The Kopper Kettle for lunch tomorrow noon and I want you to join us. Meet me there at twelve bells.

LALLEY-LIGHT THE BALL-BEARING ELECTRIC LIGHT PLANT

Lalley-Light furnishes two sources of light and power in the one plant. The machine itself is one; the storage battery is the other. Light used direct from the generator is as steady and strong and brilliant as from the battery. This is an advantage not usually found. It is due to the fact that the patented Lalley-Light engine is especially designed and built to drive an electric generator. It is worth a great deal to the man who must have light and power that are wholly reliable. We will demonstrate Lalley-Light, free. Call for the book of owners' testimonials.
