U-BOAT CAPTAIN TENDS VICTIMS

LONDON, Aug. 21.—One instance in which an enemy submarine commander, after sinking a British vessel, assisted the survivors by giving them medicines and liniment for their wounds stands out in sharp contrast with the brutality or indifference to suffering practiced by the German sea pirates. Nevertheless the survivors tell a story of extreme hardship endured in small boats for six days and nights. Seventeen are missing of the ship's company of ninety-five.

Five hundred miles from the Irish coast a large British steamer, outward bound in ballast, received a torpedo death blow. No time was lost by the ship's company in getting away from the sinking ship.

Many of the crew had been wounded, especially among the engine room force. With difficulty the injured were placed in the boats.

The submarine suddenly appeared near the boat the commander came on deck. He noticed the wounded, and calling the boats alongside his craft, he went inside, returning with bandages and liniment which he handed to the wounded officers in charge of the boats. This act of kindness saved several lives.

horizon and the U-boat made off rapidly. The small boats shaped a course toward land but the wind was light and unfavorable.

Only a small store of biscuits was carried. There was water enough for a very limited ration and in the days that followed the sea's heat was almost intolerable. Wounded seamen succumbed one after another and were consigned to the sea.

MUST MAKE KAISER RESTORE BELGIUM

LONDON, Aug. 21.—Replying to the arguments of pacifists, Foreign Secretary Balfour said in the House of Commons this afternoon the true obstacle to peace was that educated Germans hold fast against the grossly immoral theory that a policy of universal disarmament was the true policy of any nation wishing to great. This theory originated from the fact of war successes of Germany, and the way to eradicate it was to show Germany that war did not always lead to success.

strikingly exemplified on her eastern frontier, where she steadily was endeavoring to bring the peoples there under her economic and military domination. Germany went to Finland as a "liberator." Next to being enslaved by Germany there was no worse fate than being liberated by Germany. Mr. Balfour declared, Finland now was in the grip of Germany, who insisted on dictating what kind of government Finland should have, and had stripped her of copper and other materials, had established garrisons and had attempted to use her against Russia and the allies.

ILLUSION SWELLS RED CROSS

PORTLAND, Aug. 22.—A new advertising illusion invented for the Red Cross, but capable of commercial adaptation, is the work of G. Merrill Gordon of Portland, now in the service of the signal corps aviation section. The illusion is an arrangement to which pictures or objects may be made seemingly to fade into each other and by which one object in a frame may appear to be substituted for another by the use of electricity in a manner which is most mystifying to the uninitiated beholder. The illusion will be installed downtown, fitted with pictures of patriotic nature for the benefit of the Red Cross. Gordon is the inventor of an automatically controlled airplane, an adjustable sparking wrench for airplane motors, an electric plane for use on the shells on the wings of wooden ships, a turned plunger for use on a ship. At present he is working on a tractor tank, which he says may be used by one man in the battlefields of France. It will be capable of attaining a speed of 10 miles an hour and will attack tanks, tanks and shell holes, he maintains.

Grounded Ship May Be Saved. SEATTLE, Aug. 22.—Attempts are to be made within a few weeks to float an American trans-Pacific liner which has been ashore on the Japanese coast over five months, according to word received here today.

GERMANS UNABLE TO REPLACE HEAVY LOSSES IN PLANES

(WILLIAM PHILIP SIMMS) WITH THE BRITISH ARMIES IN FRANCE, Aug. 21.—The Germans are still on the defensive in the air as well as on the ground. This is due largely to their inability to replace losses. An airman taken prisoner admits these are very high—much higher than the reports indicate. He says he knows of cases of suppression of losses, while a captured report, relating to the infantry's complaint that German airplanes do not act them when allied planes are attacking from low altitudes, says the infantry must remember that on account of the limited number of fighting planes these have to be used wherever they will do the most good, which is in carrying out reconnaissances.

Nevertheless, one sees very few German planes in the rear areas, compared with the large number of our machines seen crossing the enemy's lines, headed east. The weather for the past few days has been superb in the battle zone. Although the German fighters seem to be marking time, the airman seems neither to eat nor sleep. They are giving the Germans a very thin time.

Falling Tree Injures Two. COVE, Or., Aug. 21.—A party of 15 citizens of Lower Cove rushed to Indian Creek in three mountainous east of Cove to bring out Mr. and Mrs. George Gray, both dangerously injured by a tree falling on their camp before dawn Sunday morning.

Klamath Tax Roll Is Big. KLAMATH FALLS, Or., Aug. 22.—A total tax roll of \$2,825,000, exclusive of the public service utilities in Klamath county was announced by Assessor J. P. Lee on completing his rolls this afternoon, which he announced was an increase of 36 per cent over last year. The exact increase over last year is \$1,513,421, 1/2.

By far the biggest increase noted in the personal taxes, which have been raised \$201,532, or nearly one-third. This is declared due to new industries launched, increased merchandise in stores a property of newcomers.

War School for Walla Walla. WALLA WALLA, Wash., Aug. 22.—A "war school" will be established at the Walla Walla high school to teach selected men certain mechanical trades so they can go into special lines when inducted into the army. C. R. Frazier, state director of federal and state boards of vocational education, was in the city yesterday and made arrangements for the course.

About Chronic Catarrh. Chronic catarrh results from a neglected cold or from a succession of colds, that is, before you are over one cold you contract another. The inflammation, at first acute, becomes chronic. When the cold is properly treated and promptly cured there is no further trouble. Parents often neglect colds contracted by their children and chronic catarrh from which they never fully recover. In the result, to get rid of a cold take Chamberlain's Cough Remedy. It is prompt and effective.

Field in High Estomach. Few if any medicines are more highly esteemed than Chamberlain's Colic and Diarrhoea Remedy by those who have used it for years as a stomachic and know its real value. Mrs. W. Cogswell, Andrews, Ind., writes: "I have a high opinion of Chamberlain's Colic and Diarrhoea Remedy. It is the best medicine on the market for diarrhoea and all forms of bowels trouble. My mother used it for years before I was married and still keeps it in the house."

Tonight. If your liver is sluggish and out of tone and you feel dull and bilious and congested, take two or three of Chamberlain's Tablets immediately after supper and you are almost certain to feel all right on the following morning.

OVER THE NORTHWEST

Mill Race Is Repaired. EUGENE, Or., Aug. 22.—Water will be turned into the Eugene mill race, from which power is supplied for many of the city's manufacturing plants for the first time since the spillway dam was destroyed five weeks ago, apparently by tampering on Saturday, according to announcement made by Mayor C. O. Peterson.

Pioneer's Funeral Held. HOOD RIVER, Or., Aug. 22.—Funeral services, conducted by members of the Christian Science church, were held this afternoon at the Methodist church for R. E. Lindsay, pioneer Oak Grove orchardist, who died Tuesday morning at the Cottage Hospital as a result of spinal injuries received in an automobile accident Sunday afternoon. Mr. Lindsay, a native of Michigan and 89 years of age, had resided here for 23 years.

More Caught in Shipyard Craft. SEATTLE, Aug. 22.—Two more men were placed under arrest today in the probe of alleged labor frauds in Seattle shipyards, whereby workers are said by Deputy Prosecuting Attorney S. M. Erickson to have misled the government out of thousands of dollars for labor never performed.

Seven men are now in custody, five were arrested yesterday.

E. S. Law Reaches Sailors. SAN FRANCISCO, Aug. 22.—Sailors within the draft age who refuse to go to sea after signing for a voyage will hereafter be treated as deserters, tried by courtmartial and may be imprisoned, according to an official announcement today, following the arrest and imprisonment of two sailors who refused to obey orders.

Wheat Prospect Is Good. SPOKANE, Aug. 22.—"If the present weather conditions continue to furnish sufficient moisture the acreage planted to fall wheat this season will be above the average normal planting," said Chairman Remans of the agricultural committee of the Chamber of Commerce, today. "There is a large amount of summer fallow land ready for seeding."

Salmon Pack Is Short. ASTORIA, Or., Aug. 22.—Owing to the fact that August 25 falls on Sunday the spring fishing season on the Columbia will close at 6 o'clock next Saturday evening. While it is yet too early to obtain figures the indications are that the canned salmon pack will be 15 to 20 per cent short of the amount put up last season and the cold storage output far below the average of dollars for labor never performed.
