NOT SINGLE GERMAN IN BAPAUME AT NOON

Prisoners Taken by British Since August 21, are 21,000.

PARIS, Aug. 27.—The Matin declares that not a single German remained in Bapaume at noon.

BY LOWELL MELLETT (United Press Staff Correspondent) WITH THE BRITISH IN FRANCE, Aug. 27.—The British launched a new attack south of Bapaume at 4:45 this morning which is designed to make the situation below Bapaume as precarious as that above, where the line extends actually beyond the city. New Zealanders are on the northern outskirts of Bapaume, having taken Beaumont during the night. They captured prisoners from three battalions including a battalion commander. Simultaneously the British are moving eastward along the Scarpe, the Highlanders on the north and Canadians on the south, utilizing yesterday's important gains.

Take Advanced Trenches Easily. The British last night swept down the Hindenburg line and over the advanced trenches of the Hindenburg line, capturing these easily, but found the Germans holding hard on the support lines.

Fighting below Bapaume is unusually violent little attempt having been made yet to carry Bapaume directly, although there is patrol fighting constantly in the outskirts and British reconnoitering patrols entered the city late Sunday.

Canadians Withdraw, Then Smash. LONDON, Aug. 27.—General Haig reports that the Canadians after capturing Wancourt carried their lines east of Guenappe. A counter attack forced the British back from Longueville to Bazentin-le-Grand and Highwood. The counter attack was broken up there and the British positions reestablished beyond Highwood.

Yesterday afternoon and evening there was severe fighting on the field of the old Somme battleground between Maricourt and Bapaume, also to the northward. The enemy counter attacked repeatedly in strength, incurring great losses, but was unable to arrest our advance.
