NORTHWEST HAS PLENTY RAILROAD CARS FOR GRAIN

PORTLAND, Or., Sept. 2.—The northwest has all the railroad cars it needs. The lumber is being moved promptly and the fruit and grain movements will be handled promptly. This was the declaration today of John C. Roth, chief of the car service section of the railroad administration in the northwest.

Roth called the story making the rounds that the railroad administration has curtailed the service of stock trains in any way. "Fast stock trains are still being made up for any number of shippers who can muster ten cars of stock. No stock is being handled on slow freights, except possibly to get individual cars to main lines. There is no more occasion for the interference of humane officials than there ever was. Part of the story was that the humane officers should investigate the government's mistreatment of cattle.

"The rules of the interstate commerce commission still hold and are strictly enforced. They provide periods for resting and feeding stock every 36 hours on intrastate hauls," he said. "The shipper must vouch for the stock's ability to stand the 36-hour run."

Roth said the spruce division is using 46 cars daily out of Vancouver, Wash., alone.

"Northwest lumber mills are very low on sidcut reserve, which indicates the car shortage of a few months back is a thing of the definite past," said Roth.

The sheep movement from eastern Oregon to the Chicago market is on without a hitch, he said, and the soft frosts will be moved in the same manner.

The grain movement will be heaviest in the next thirty days, but there will be plenty of cars, according to Roth.

WAR GIVING LABOR NEW DIGNITY IS DANIEL'S TRIBUTE

Navy Secretary Declares Loyalty of Toilers Cheers Allied Lands.

INDIANAPOLIS, Sept. 2.—"American patriotism and confidence in victory mainly rest upon the knowledge that American toilers are loyal to the colors," said Secretary of the Navy, Daniels in a Labor Day address here today. "Full and complete entitlement of American labor has not only heartened America but has cheered and strengthened the heroic men fighting for Liberty across the seas. The magnificent reception of Gompers in Great Britain where he was hailed as a labor apostle, the 'win the war' doctrine has stimulated the victory spirit in all allied countries."

Daniels said labor had shown itself patriotic and devoted and has largely increased the nation's output, although its ranks are depleted. He pictured the world after the war as a world with bread gangs, and with a liberalism that will be a benefit to all mankind. "When peace comes what labor earns will find its way into laborers' pockets. This war's fundamental effort will be to change everything. There will be more equitable division between labor."

INDIAN WAR VETERAN ANXIOUS FOR VICTORY

William Monroe Frazer, aged 91, who saw service in the Indian wars and who has been a resident of Pendleton for 41 years, composed the following lines on the present war. He says that in spite of his age he takes great interest in the world struggle and wishes he were able to shoulder a gun. Following is the poem: Let the war cry be—"On to Victory!" Whip the Hun on land and sea. Hang the Kaiser from the tallest tree. Another such war shall never be. Our ships will sail from sea to sea. The Stars and Stripes wave o'er the land of the free, And the world accept Democracy.
