**DISEASED HUNS ARE FORCED TO FIGHT WITH THE AMERICAN ARMY IN FRANCE.** Sept. 20.—A German

soldier captured south of the Aisne was found to be suffering from a disease of the ear and aneurism. He told the American medical officers he had been forced to the front. Until a few weeks ago he had been employed in a non-combatant position, owing to his affliction.

He said he was in the first line in Flanders and arrived opposite the Americans five days ago. He knew of cases where Germans had sick enough to go to hospitals were being used in the supply or other departments back of the lines and declared that in a number of instances soldiers suffering from serious illness had been sent to the front line, as he had been. He is now in an American hospital.

**FOE IS EXTRACTED: SLEES BONESSETTER**

**CASTORIA For Infants and Children In Use For Over 30 Years**  
Always bear the Signature of *Dr. J. C. Hathcock*

very without a fessing.

Nimick had trouble with his foot, and, following the advice of a friend, went to see the "bonesetter," who pulled the toe.

One toe did not appear to respond to treatment, Nimick says, so a straw was fastened around it, with the result that the toe came off at the second joint. Rud was held for court.

## All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood. Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote.

S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B, Atlanta, Ga.
