WITH THE AMERICAN FIRST ARMY, Oct. 5.—The resumption of the Americans' attack on a 20 mile front west of the Meuse with a five mile American advance east of Rheims, has brought the Americans within smashing distance of the German line at two important points.

MAIN RAIL ARTERY MENACED WASHINGTON, Oct. 5.—March today declared the American advance between the Argonne and Meuse threatens Germany's main rail artery on the western front. The Americans are now within 18 miles of that railroad. He said the drive has compelled the Germans to throw "many divisions" into its path.

COUNTY CHAIRMAN ASKS ALL TO INCREASE SUBSCRIPTIONS 25 PER CENT TO MEET GOAL

Fearful of Umatilla county's ability to meet its fourth liberty loan quota the following statement was issued today by W. L. Thompson, county chairman.

"Our quota in the Fourth Liberty Loan is \$2,000,000. Our subscriptions to date total \$1,600,000. We are short approximately \$400,000 in the county."

The rating committee fixed the individual quota at the minimum each should subscribe and with all individuals taking their full quotas we find that our totals would still be approximately \$2,000,000 short of our quota.

"This must be made up. We now appeal to all to increase their subscriptions at least twenty-five per cent. It is not proposed that anyone shall be excused from taking their full quota, except for the best of reasons. In making the appeal for over subscriptions from those who responded promptly and fully we must give the assurance that there will be no let-up in the campaign against slackers. Their slogan is 'No quarters for those who are not with us.'

Distriet Chairman Hartman is today notifying his present chairman and team captains to attend a meeting of the Commercial Association tomorrow afternoon at three o'clock, at which time they will be given their list for the follow-up campaign. They will be told to clean up their lists in a day and if the response to the appeal for slackers.

"What will our boys over there think of us if we fail to do our duty?"

"Over there over-subscriptions is as great as is hoped, it is believed that Pendleton may reach the top by Monday night."

HIGBY HARRIS WORTH \$175,000 IS BOND SLACKER; HILBERT AND PETERS SUBSCRIBE FOR BONDS

To the Public:

The Central Loyalty Committee of the Umatilla County Patriotic Service League feels that it has occasion and ample warrant for presenting to the public the name of Higby Harris of Milton as one who has consistently and flagrantly failed in the support of his government at war. It believes that the word "slackers" was coined for just such men as he.

Mr. Harris has lived in Umatilla County many years and has grown wealthy here. He is generally credited with being the wealthiest citizen of the east end of the county. He is paying taxes under his own name on real property assessed at \$75,000 and personal property assessed at \$10,000. A very conservative estimate as to his wealth made by men in position to judge places it at \$175,000.

Mr. Harris did not subscribe to the First or Second Liberty Loan. In the Third Loan, when an organization for rounding up delinquents was created, he subscribed \$2500. That was the amount of his subscription to the Fourth Loan also. He refused to subscribe for his rating of \$4000. He was notified to appear before this committee and make such explanation as he deemed might justify his refusal. He ignored the notice and the committee feels that it should hesitate no longer in exposing him to the citizenship of the county for the shirkers that he is.

In the Second Red Cross War Fund campaign Mr. Harris refused to contribute a dollar and we have no record of his ever having

made a donation to a war fund. On the other hand we have received innumerable reports to the effect that he has thousands of dollars on deposit and has openly stated that he intends holding his money until after the war so that he will be in a position to buy land when values shrink.

We feel that Mrs. Harris is in a position to stimulate his neighbors in patriotic undertakings and yet the committee believes that there is no one man in the county whose example has been the cause of so much dissatisfaction. We hope there are few citizens in America who have given such flagrantly support and who have manifested a spirit of such grudging patriotism. To Mr. Harris and to the county the committee wishes to say it has not had its final say.

Besides Mr. Harris, the committee had summoned for hearing last evening, Mr. John H. Peters of Pendleton, Mr. Frank Hilbert of Okah and Mr. L. C. Bothrock of Pendleton. It is glad to announce that Mr. Peters has agreed to subscribe his full quota today and that Mr. Hilbert this morning authorized his banker to bring his subscription up to \$4000, his quota. Mr. Bothrock left the city for California before he received his notice to appear before the committee and will be granted a little more time to make his explanation if he so desires.

MEN U. S. MACHINERY IN WEST FRONT BATTLE

Americans Veterans After Few Weeks Experience.

WITH THE FIRST AMERICAN ARMY, Oct. 5.—The Franco-American advance in the Champagne region is now a case of men against machinery. Allied infantry pushes furiously on over well organized defenses and the Germans are retiring only when shelled out. The Americans have profited greatly through the past week's experiences. They give the bunches machine guns no more fine opportunities, through charging recklessly. Yesterday's operations were attacks of veterans against experienced defenders. The Germans admit the assault's suddenness surprised them. There was no artillery preparation to give warning. At 5:30 the entire sector was suddenly cut off by an American barrage. The German front lines, puzled, waited five minutes inactive. Then the doughboys jumped off, sweeping forward, leading against the creeping explosive line. The Americans' heavies were meanly pounding German batteries with high explosives and gas. German batteries were saturated with mustard gas. The Americans jumped the machineguns quickly advancing a kilometer per hour.

FIGHTING FURIOUS.

Furious fighting has continued to day all along the 20 mile front in the Champagne-Ardenne region. Heavy artillery is ideal for aerial assaults. The weather is ideal for aerial activity. Stupendous violent German counter attacks in the Fleville region on the Arromanches eastern edge were repulsed last night. The attack west of the Meuse began at 5:30 yesterday morning. By midafternoon hill 240, Gresnes, Fleville, Chemery and La Ferges were captured. The advance was fully maintained against severe counter attacks. The attack is successful in Arromanches despite the greatest difficulties.

EXPLOSIONS EVIDENCE LOSSES.

The Boches have interlaced barbed wire with filled trees cleverly concealing machine gun nests. Tanks cleared these up. Numerous ammunition dump explosions in the enemy's rear lines throughout the day evidenced the Boche's heavy losses from allied artillery. The allies attacked later at some points without artillery and surprised the Germans. Heavy concentration of artillery and machine guns has offered stubborn resistance all day long. The American attack is highly spectacular. General Gouraud today sent personal congratulations to the American divisional commander.

BY JOHN DE GANDT.

(United Press Staff Correspondent) PAIS, Oct. 5.—The Germans increased in the great Argonne forest by the Franco-Americans are expected to evacuate. The Germans in a newly created pocket northeast of Rheims are imperiled. The French have reached the Armes river and are now threatening to envelop the Germans who are still holding Nogent, La Bassée and Pierrefitte between Rheims and the Suppe river. The Franco-Americans are firmly established on the Oiseau tablelands.

HUNS FLEE.

PAIS, Oct. 5.—The war office today announced the French have additional progress north of St. Quentin, northwest of Rheims and in Champagne yesterday. The Germans have evacuated the eastern portion of Mons region threatened with envelopment by the Franco-Americans.

North of St. Quentin fighting continued with some violence," said commandant. "We drove the enemy back fighting for four hours from a height located 1200 meters southwest of Chardonneau and from neighboring woods. More prisoners are taken northwest of Rheims.

We again started a push on the whole front of the Aisne canal, which we crossed, and we reached the border of Bercloux, six miles above Rheims.

2500 CAPTURED IN 5 DAYS.

Over 2500 prisoners have been taken in the past five days. Thirty-one guns were captured, including 20 heavy, sharp attacks by French and American troops in Champagne with progress towards Armes forced the enemy who was threatened with envelopment on his left to evacuate hurriedly the eastern part of Mons section.
