Its Your First Duty to Yourself and to Your Country. Don't Let the Son Go Down

The COURAGE

to BELIEVE IN the WORTHIEST and BEST

IDEALS in life and business are very potent things. We are at war for ideals of liberty and democracy.

CAN ANY MAN DOUBT the force of those ideals, or fail to see what they have done for America since she entered the war—in welding our people together; in giving life a loftier meaning and purpose; in wiping out class distinctions, race and religious differences; in teaching us all to live up to the best that is in us?

AS FOR AMERICAN BUSINESS, there will be a new era after the war. We should all be preparing for it now.

WHEN THAT STAMP "Made in America" goes out over the world, the Government should see that it represents merchandise of honest merit—our worthiest and best. Otherwise it will be traded upon by makers of cheap and inferior goods: it will misrepresent the spirit of American

business and of American labor.

AMERICA must maintain her quality standards in the eyes of the world. She must proclaim at home and abroad the undoubted economy of buying the best.

MORE AMERICAN MERCHANTS right now should put behind them the temptation of "seeming cheapness."

In the present difficult conditions, with high costs and shortage of materials, it is plainer than ever that the only true economy is in buying worthy goods.

THE HOUSE OF KUPPENHEIMER for three generations has held to its belief in quality. As one of the very foremost clothing concerns in the world, it has an organization and buying power surpassed by none; and it places these at the service of all who believe that this is the time to hold high the banner of quality—to maintain standards—and to build for future trade and confidence.

Your Kuppenheimer Merchant represents a National clothes service, both MILITARY and CIVILIAN, of peculiar advantage to you right now while present stocks are intact
