PORTLAND ATTORNEYS NOT SATISFIED WITH FEE; BANKRUPT CASE

Telser & Smith, Portland attorneys, representing the Merchants Protective Association in the bankruptcy proceedings against the Blewett Harvester Co. before Judge Thos. Fitz Gerald of this place, are not satisfied with the fee of \$100 allowed by the judge and have requested a review of the question to take it to the federal court at Portland.

As the bankruptcy proceedings proceed the assets of the Blewett Harvester Co. have dwindled until the judge says it looks as if the creditors of the company will not receive more than ten cents on the dollar.

The appraisal of the company's assets, exclusive of bills receivable, is placed at a little over \$46,000. Much of the property is of a character—special machinery and parts—that renders it almost valueless for anything but junk.

BELIEVED GERMANY MUST GIVE FLEET

Stern, Formidable Answer Declared Endorsed by All.

LONDON, Oct. 16.—It is learned reliably that Germany must surrender unconditionally before obtaining an armistice. Terms will follow complete disarmament and disbanding the army and the occupation of Metz, and other German towns.

Military authorities also believe Germany must surrender her fleet permitting the allies to occupy Heligoland. Brussels is favored as the location of a peace conference. Winston Churchill, British munitions minister in a speech at Manchester today said, "Wilson's stern, formidable answer is undoubtedly endorsed by all the allies." Ignorance Law addressing the House of Commons, said "It would be most unwise for the allies to state peace terms before arranging an armistice."

RUMORS ARE MANY. WASHINGTON, Oct. 16.—Walter Toews, directing cable and press censorship today issued this statement: "Apparently European news centers are full of all sorts of rumors regarding the attitude Germany will take regarding the President's communication. The press and cable censorship will not prevent their entrance into this country, but your attention is called to the dangers which may arise over emphasizing such reports. Playing up such rumors will effect the Liberty Loan and public's attitude toward the war."

AMERICANS BATTERING NEW BREACH IN KRIEMHILDE LINE, ARGONNE PASS IS CROSSED

Collapse of Wide Front Probable; St. Juvin Heights Captured, Hun Trick Fools Yankees.

BY FRED FERGUSON. (United Press Staff Correspondent.) WITH THE AMERICANS ABOVE. VERDUN, Oct. 16.—The Americans are battering another breach in the Kriemhilde line near St. Georges. The enemy is fighting most desperately. A break between the Aisne and Meuse means the collapse of the entire German front there. It would shatter the enemy's left flank, with the effect being felt all along the line.

HEIGHTS ARE WON. BY FRANK J. TAYLOR. (United Press Staff Correspondent.) WITH THE AMERICANS, Oct. 16.—The Americans have captured St. Juvin heights and are advancing northward beyond them. They took 240 prisoners. The first army has mopped up Grand Pre, crossed the Argonne and is pushing onward.

20 DIVISIONS IDENTIFIED. Captured German orders stated that Grand Pre must be held at all costs. In this fighting a new Prussian guard division was encountered, making a total of 20 such units since the American offensive began in this region. Beginning the present phase of this assault, the Americans went over the top at 8:30 in the morning, gaining their first objectives at some points with great rapidity.

"CLACKERS" FOOL YANKS. Often there was only slight opposition, because Yankee artillery was deadly. About Cunel and Bolderferet, the Germans used "clackers" which make the same sound as machine guns. Those machines led our men astray, searching for machine gun nests. This is especially true when the clacker boxes are located behind the doughboys. South of the Aisne the Americans are digging in.

CITIES UNDER FIRE. Buzancy is under American shell fire. Dun-sur-Meuse, Steunay and other big railway centers are repeatedly bombed by airplanes. The way is being cleared for further advance. Enemy communications are being constantly harried.

RESISTANCE DESPERATE. The Americans are steadily pushing on and are narrowing the avenue through which the Germans can withdraw. Rapid gains by British and French to the northward, necessitate stiffest Boche resistance to the American here to avoid being cut off from the rear. There are no indications the enemy is caving in before the Americans. If he does, it means the finish of the war will be on French soil. As communications between the German armies will be cut and they will be doomed.

WITH THE AMERICANS, Oct. 16.—The Americans widened their breach in the Kriemhilde Line in all day fight, netting their biggest day along the Aisne. The doughboys stormed St. Juvin. There was bitter fighting between St. Georges and Landress, east of Grand Pre, where the Americans penetrated formidable wire defense, facing terrific machine gun fire.

ARMY INFLUENZA CONTROLLED. WASHINGTON, Oct. 16.—Baker today declared influenza in the army is now probably controlled.

\$2,000,000 OIL BURNERS IN BATTLE FLAMES

Two Japanese Liners Trapped by Burning Oil on Water; Flames Leap 100 Feet

STREAM PLAYED ON CANVAS OVER SHIPS

Fire Wall Saves \$1,000,000 Municipal Terminals.

SEATTLE, Oct. 16.—Fire which destroyed the Great Northern oil piers was still burning fiercely this morning although under control. The loss is over \$2,000,000.

Two Japanese liners, trapped by burning oil on the waters of the bay, were forced to remain within 100 feet of the intense billows of flame. They are believed safe as canvas was thrown over the sides, while Japanese constantly played water streams over the vessels. Flames from burning soybean, peanut and rapeseed oil leaped hundreds of feet in the air, lighting the entire bay coast. A fire wall, erected last year, saved municipal terminals valued at over a million.

TAKE BONDS AND HIT KAISER SAYS M'ADOO

In an earnest message to the railroad men of the county, Director General McAdoo makes an appeal for liberty bond subscriptions. The message transmitted here today by J. P. O'Brien is as follows.

"I wish you would say to the railroad men in your region, officials and employees alike, how earnestly I hope they will subscribe to the limit of their ability to the Fourth Liberty Loan. Lending their money to Uncle Sam is the finest way they can make of it, not only because it is a safe investment for themselves, but it will help their country with the war. The fact that the Kaiser is already making offers of peace, should make us more eager to put this loan over and keep our fighting pressure up to the maximum until we get peace. Now is the time for every man in the fighting army in Europe and in the industrial and financial army at home to go the limit to make the great victories our soldiers have already won absolutely complete and final. I hope that when the returns come in next Saturday it will be shown that the railroad men in your region are one hundred per cent. I hope that no railroad men will fail to do their fullest part.

RECORD DEFICIENCY BILL IN CONGRESS

Brings Total Appropriations to Over \$36,000,000,000.

WASHINGTON, Oct. 16.—Chairman Shirley of the house appropriations committee today submitted in congress the largest deficiency bill of all history, carrying \$8,245,757,666. Six billions go to the war department for enlarging the army program to place three complete American armies in France by next July. The remainder goes to the navy.

The bill authorizes the President to create a salvage committee to recommend the disposition of government property acquired during the war. The measure gives the shipping board power to acquire, construct, establish or improve any plants or lands or to make loans to private persons with the President's approval. This bill brings this congress' total appropriations to over \$35,000,000,000, two thirds of which is for the army.

"Other things being equal, the department of agriculture in granting privileges on the national forests will give preference to persons who have subscribed for Liberty Bonds to an amount considered reasonable."

HUN STILL NEEDS LOTS OF LICKING

SAN FRANCISCO, Oct. 16.—Urging another relaxation of shipbuilding efforts, Edward Hurley today telegraphed all shipyards declaring "No worker will make the error of thinking for the moment that the war is nearly over. America has just begun to fight. In the coming months our long preparations on the battle line and in ship yards will yield results." Shipbuilders know the need of continued record breaking. Every ton of shipping delivered now is needed to carry our boys to France. Every ton launched now means force to the uttermost to really win the war next spring. Do not go by the war map. That still needs lots of changing. The enemy still needs lots of licking. Tonnage will win the war and bring permanent peace."

Prussia Pinned to the Wall, France Applauds, Document Interpreted

BY WILLIAM PHILLIP SIMMS (United Press Staff Correspondent.) PARIS, Oct. 16.—Wilson sums up the French opinion on the terrific stratagem from the shoulder blow which is universally applauded here. The impression is that the President's document is one of the most historic of the war. Some newspapers publish it in both French and English desiring the meaning of not one word to be misinterpreted.

MASTERY OF AIR CERTAIN

CHICAGO, Oct. 16.—Congressman Julius Kahn, of California, ranking republican member of the house military affairs committee, in a speech made before the Association of Commerce, declared that by the end of the year America will have more airplane on the battle front than all her allies put together, and will have obtained absolute mastery of the air.

"German peace talk will not be allowed to interfere with our military program," he said. "To the 2,000,000 men now under arms, 2,000,000 more will have been added by March 21, and by July 1, four million Americans will be fighting in Europe. Unless Germany surrenders more than 2,000,000 American soldiers will have overrun German soil before September, 1919."

Forecast: Tonight fair cooler; Thursday fair.
