SURGEONS OF ARMY TO RIDE IN PLANE

PARIS, Oct. 16.—Surgeons of the French army will probably soon be carried in airplanes to present stations behind the firing line when their services are urgently needed. Four surgical airplanes now are being completed for this use on the battlefields. The planes will be capable of lifting three men—a pilot, a surgeon and an X-ray operator—together with radiograph, surgical instruments and a small folding table. They will have a speed of from 45 to 70 miles an hour, which will enable them to reach, for example, Neoyon to Paris in an hour, whereas the lightest surgical motor takes half a day.

POWELL SENDS HIS BEST TO PENDLETON FRIENDS

C. E. Powell, former employee of the O-W. Company at Pendleton, writes from France to his fellow-employee, Billie Ferguson, here. He is in the transport service.

Somewhere in France, September 19, 1918.

My Dear Friend Billie:

No doubt you will be surprised to hear from me away over here but just the same I have promised myself several times to write to you and I am almost ashamed of myself for not writing long before.

Well, Billie, to start with, I just finished my day's work and am in the mood as I owe several letters to some of the boys at home. I am at present working every day and we are kept awful busy to keep supplies moving to our brave boys up the line. I do not think you are kept busy at home as I imagine the O-W. R. & N. is doing its share of the business. I haven't heard from any of the boys around home for some time. I write H. E. Nelson but he did not reply so I don't know just what you are doing there at home and for the same reason I am writing and hoping to get some news from that section of the country.

We are located at a very important seacoast city; one of the busiest in France and plenty of activity. All sorts of people and plenty for each to do. My present location is about 200 miles away from our reserve company but the boys come to and from.

Johnnie is in the same company as myself. D. H. Jesse is with a different company. I see him quite often, though. I understand A. C. Murphy was made first lieutenant. In some engineer outfit. Don't know just what number. I haven't heard from him direct. Mrs. Powell advised me. I hear from home every week. Mrs. Powell and the children are as fine as can be. She and the children are at Manette, Wash., with my mother. I also have a younger brother over here some where. I hear from him often. We don't say just where we are located as we are all on a P. O. number. There are considerable differences between France and good old U. S. and we are proud of the fact we are Americans. But with all the suffering these brave French have had they are the same cheerful and there is nothing too good for the American soldier. I received a letter from Mrs. Powell yesterday. She states things are awfully high there with you over there. We speak as you all speak as over here. But I as well as many others will be glad to get back to our loved ones and are all working night and day to finish the task over here.

Now, Billie, I was talking to our captain the other day and he advised me he worked with you on the N. P. R. R. He is our terminal superintendent and a mighty fine fellow. I told him I would write to you in connection. His name is Capt. Fred Branstup and was with the N. P. R. R. at Seattle, Wash.

Now, Billie, I will certainly appreciate a reply and give me all the

news you can as we are always anxious for good tidings from home, and give Tom O'Brien my regards and tell Tom we have a terminal here. The hospital will from one end of the yard to the other in as quick a time as he would take for him to dust off the passengers on No. 18 or any of the trains. But just the same Tom's O. K. Give Chief Roberts my best. Also Sheriff Taylor and any of the boys you meet. Tell them all I am fine and dandy and we are working to accomplish the chafe. Give my best regards to Mrs. Ferguson and your family and hope this will find your self and your family in the very best of health. I will appreciate an early reply. With my very best wishes to you all, I remain yours truly,

C. E. POWELL.

PRAISES CORNELISON.

In his story in the Portland Journal this morning, Fred Lockley pays a high compliment to Rev. J. M. Cornelison, now in Y. M. C. A. work in France. He also tells of meeting Miss Fern Hobbs, former secretary to Governor West and who took the message and proclamation that closed Comberfield because of its vice joints.

Miss Hobbs is a Red Cross worker in France. Jerry Rusk, La Grande attorney who is in the Red Cross service in France is also mentioned.

Of Mr. Cornelison Lockley says: A short, heavy set, light complexioned man in the uniform of a Y. M. C. A. secretary approached me a day not long ago and said, "You are Fred Lockley. Do you know who I am?" I said, "No. Who are you?" He said, "I come from the town whose slogan is 'Let 'er Buckle'." It was J. M. Cornelison. Mr. Cornelison's first charge was at Pendleton. This was 19 years ago. He was born at Richmond, Ky., in 1876, educated at the San Francisco Theological Seminary, and became a missionary under the Presbyterian mission board and his work among the Indians. Indian near Pendleton has been singularly successful. "You are an old time Pendletonian," said Mr. Cornelison. "You know what a wonderfully generous people our people are. They fairly overwhelmed me with gifts when they knew I was to come to France."

I wanted to see that Mr. Cornelison got off on the right foot and was not sidetracked, as many men are, so I wrote a note to I. B. Rhodes and went up to see Mr. Powers to tell them that Mr. Cornelison could drive a Ford, run a moving picture machine—has a Round-up film with him—preach a good sermon and talk Nez Perce fluently. The French people will come as near understanding his Nez Perce or Chinook as they do my French. He is the type of man that will make good.

Mr. Cornelison is a very successful man in the Y. M. C. A. work in France. He is a very generous and kind man. He is a very successful man in the Y. M. C. A. work in France. He is a very generous and kind man.

Miss Rachel Johnson Tells How Cuticura Healed Her Skin Of Blisters On Face Sore, Disfiguring and Painful

"Every time I was exposed to wind and sun, my face would come out in blisters. These would break open and were very sore and disfiguring. My face would burn and itch, and I could not sleep it was so painful."

"I tried many preparations but with no relief. Then I used a free sample of Cuticura Soap and Ointment. I found relief at once, so I bought more and I used one box of Cuticura Ointment with the Cuticura Soap when I was perfectly healed. I use the Cuticura Soap and Ointment all the time, and would not be without them."

(Signed) Miss Rachel Johnson, Dubois, Idaho.

Cuticura Soap and Ointment are not only most valuable for the treatment of pimples, dandruff and irritated scalp, but their great mission is to prevent such conditions. Cuticura Soap used exclusively for the toilet, and Cuticura Ointment, as needed, keep the skin and scalp clean, clear and healthy.

Sample Each Free by Mail. Address post-card: "Cuticura, Dept. B, Boston." Sold everywhere. Retail 25c. Ointment 25c and 50c.
