PARIS, Oct. 30.—It is officially announced that the Italians have taken 25,000 prisoners and two hundred guns in this offensive.

Line Completely Pierced. WITH THE ITALIANS AFIELD, Oct. 30.—The Italians and British completely piercing the Austrian's line of resistance, are advancing rapidly eastward between the two railway lines which are feeding the Austrians on the Piave front. They have cut all lines of communications on the Venetian plains.

These two railway lines run from Treviso to Sasarsa 35 miles northeast of Treviso, the northern line crosses the battle front at Conegliano and the southern at Sandona di Paiva.

LONDON, Oct. 30.—While Austria-Hungary, torn by international discussion, is frantically seeking peace, the allies are battering her armies to bits on the Italian front, and are rapidly approaching Hungarian territory. Her armies are rapidly nearing utter rout. British, Italian and American are across the Piave on a 40-mile front. They have captured over 100 villages and over 15,000 prisoners have been counted. King Emmanuel has crossed the Piave. He was cheered by his troops and Austrian prisoners.

OHIO UNITS ENGAGED WITH THE ITALIANS AFIELD, Oct. 30.—The allied advance continues on the whole fifty-mile front from Frenta to the Treviso-Odessa railway. Progress is greatly accentuated on the right flank above Treviso. American troops comprising Ohio units have crossed the Piave and now are ready to take up the advance with the Italians and British.

Over 100 villages and communities east of the Piave were occupied at 9 yesterday morning. An Italian bicycle corps entered Conegliano, 15 miles above Treviso. Airplanes signally their arrival and a Rome brigade completed the occupation.

BASE ENDANGERED. The tenth army is advancing rapidly eastward, employing many abandoned Austrian batteries to shell the retreating enemy. The Italian's 12th army, scrambling over mountains northwest of Valsobbiadene, has passed Refrontolo, seven miles southwest of Vittorio which is the base of Austria's whole system of communications to the Venetian plains from the north. King Victor Emmanuel crossed the Piave with a regiment of bersaglieri and was greeted with cheers. A large contingent of Austrian prisoners also cheered him. The constant charge of the Italians and British across the Piave is one of the war's spectacular achievements.

Vienna Announces Withdrawal. VIENNA, Oct. 30.—Austrians on the Piave front were withdrawn to a new position in the rear areas last night, the Austrian war office announced. "On the Piave, although the entente forces did not succeed in breaking through, towards evening we decided to withdraw in the most most strongly attacked sectors to the rear of our lines. The movement was carried out during the night. In Albania our rear guards have evacuated Albania."

ROME, Oct. 30.—The Italian have reached the Livenza river. The Italian have extended the offensive.

AMSTERDAM, Oct. 30.—The famous Kremlin fortress was elaborately mined by Trotsky in preparation for a retreat before the Czech-Slovakian army. A band of unknown men who looked upon the act as a sacrifice, removed the explosives and destroyed the wires.
