Linen Solicited Will Fill Quota.
Enough linen has been promised solicitors for the linen drive to fill the quota of Umatilla county, according to Mrs. Elmer E. Cleaver, head of the committee which is securing 350 sheets, 60 napkins, 650 bath towels and 900 handkerchiefs to equip a base hospital. Mrs. Cleaver is confident that the quota will be filled and is enthusiastic regarding the linen promised her but urges that the donations be sent in as soon as possible as she wishes to start packing on Wednesday. She expects that it will take some time to pack the linen as all pieces must be put in packages of 10 before being put in the cases. Seven large cases will be used for the shipment.

To Compile Road Data.
Forest rangers of the Umatilla National Forest, with other rangers in Oregon and Washington, will furnish the data for accurate road logs of all the important automobile roads in the two states in compliance with instructions from District Forester George H. Cecil, of Portland. The information is being gathered at suggestion of the tourist bureau of the American Automobile association. The maps and reports will contain a general description of the interesting features of the route and in some cases a historical sketch. Hotels, telephones, road houses and ranches where accommodations can be obtained will be noted, also repair stations and supply points for gas, oil and water.

Will Be Buried Here.
Alfred John Horn, former Pendleton man, and son of Mr. and Mrs. J. A. Horn of this city, who died recently in Portland from an attack of Spanish influenza will be buried here tomorrow in the Olney cemetery under the auspices of the Masonic lodge, of which the deceased was a member. He left Pendleton some years ago and has been employed as a fireman in Portland, but was admitted to the bar recently and intended practicing law in the near future. Horn was 31 years of age and is survived by his wife, who will be unable to attend the funeral because she is suffering from influenza. J. A. Horn, father of the deceased, is superintendent of the Umatilla county poor farm.

Miss Grace Hoch, who has been attending the University of Washington is in Portland visiting her mother, Mrs. Mary Hoch, as the Spanish influenza epidemic has caused the closing of college.

Brownell Denies Report.

C. G. Brownell, one of the republican nominees for representative, is indignant over reports that he has left Umatilla county and moved to Portland. Mr. Brownell declares he has been in Portland because of his wife's illness there and in connection with

his application for the officers' training camp at Camp Taylor. He feels he is being punished for having offered his services to the government and says it is unfair. Mr. Brownell now has land at Umatilla and it is his intention to live there when the war is over.
