STANFIELD MOVES OFFICE TO ONTARIO

STANFIELD, Ore., Nov. 2.—No longer will Stanfield be known as the headquarters of the big Stanfield interest, for Bob Stanfield today shipped all his office furniture and fixtures to Ontario, and will look after all his business interest from that point. The new location is said to be the most central place for his business, and this is given as the reason for the change. This change means the departure of three families from Stanfield. An office will be retained at Stanfield to look after his local interests, but the main office will be in Ontario.

During the time that Mr. Stanfield has had an office here, his business has increased from one person until at present six people are employed in the local office, and four clerks in subsidiary offices.

Those who will leave here are Mr. and Mrs. Don Pruitt, Mr. and Mrs. W. P. Phillips, E. L. Hoppel, L. R. Striebel and Miss Katherine Dick. Miss Mary House will remain in charge of the local office.

SPANISH INFLUENZA

Resembles Old Fashioned Grip

The symptoms of Spanish Influenza are very similar to old fashioned grip—pains throughout the body, extreme dizziness, sleepiness, chills, high fever, headache, disturbed digestion with running at the nose and eyes and excessive spitting, showing an inflammation and congestion of the mucous linings.

Manifested by Catarrhal Condition

With the first symptoms of influenza, it is well to consult your family physician at once. It is not the disease itself that is to be feared so much as it is the complications which may follow. To ward off Spanish Influenza or as an aid to returning health after an attack, nothing is any better than Dr. Hartman's World Famous Peruna.

For Catarrh of Every Description Take PE-RU-NA

The well known and direct action of Peruna in restoring and maintaining a healthy condition of the mucous membranes throughout the body makes it the greatest disease preventing and health restoring remedy known to science.

For forty-five years Peruna has retained its title as a reliable safe-guard to the health of the American family.
