

Tension Relaxed

The business men are more confident than ever, they feel that the Allies have the war situation well in hand, and thus the greatest tension is relaxed. Still they are keen, business affairs are unstable and subject to daily, often hourly changes, and the near future may have in store many unforeseen conditions.

It is then, more than ever, that you want back of you a real strong bank, helpful in your business affairs, like

Pilot Rock Man Gassed Somewhere in France

(East Oregonian Special) PILOT ROCK, Nov. 7.—Mrs. H. H. Reynolds has received a letter from her son Sidney, who is somewhere in France. He has been gassed and is in base hospital No. 8. He is with the engineers.

Election day made Pilot Rock a busy place. The voting was unusually heavy this year. On account of the 60th Fellows hall being used for the high school, the church was used as a voting place for one precinct.

An elaborate embroidered satin pillow top is on display in the window of Castel & Stanley this week. The pillow was sent from France by Lord Beck to his sister, Mrs. Fred Groves.

Maud Runyan has accepted a position at the Pilot Rock Mercantile Co. as bookkeeper and dry goods clerk.

The telegraph service has been very uncertain and aggravating delays have been reported.

Boy of 15 Charged With Murder. TACOMA, Wash., Nov. 7.—Walter LaRoy Hopkins died today from wounds received when he was fired upon by a crowd of Halloween rosters at the home of a friend. Frank Sowders, age 15, is charged with first degree murder. Hopkins was visiting at the home of friends when a crowd of boys became annoying before the house. He stepped to the porch to remonstrate when a shot was fired which struck him in the stomach, perforating the intestine. Sowders was accused by other boys in the gang of having fired the shot.

SIMPLIFY PROCESS TO OBTAIN OFFICERS

WASHINGTON, Nov. 5.—Applications for commissions in staff corps and departments of the army need no longer come or write to Washington to have their applications acted upon. Gen. March, chief of staff, announced today that the procurement of officers for all branches of the army had been centralized in the personnel

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial dandy must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, ferrug tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dummed-up body waste, bile and toxins. Most folks resort to violent cathartics, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food to the stomach.

Limestone phosphate does not restrict the diet like cathartics, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, sweetens and freshens the liver, keeping you feeling fit day in and day out.

with the nearest district headquarters and an application will be sent to him. Later he will be examined.

Do not burn coal in open fire places. Ninety per cent of the heat escapes thru the chimney. BURN WOOD in the fireplace. BURN WOOD in the FURNACE UNTIL COLD WEATHER.

In using cooking ranges keep the fire pot full, even with the top of the oven. Use the check damper in the stove pipe; when baking use the oven to full capacity. When finished baking close all front drafts, open the check-draft damper in the pipe and remove one of the lids over the oven two or three inches.

Draft Evader Is Shunned. JUNEAU, Nov. 7.—Foreigners in Alaska who surrender their first citizenship papers to escape the draft are considered men without a country. One recently arrived here from southwestern Alaska wearing a yellow ribbon indignantly citizens had placed on him. According to reports received from Anchorage and Cordova, this man, of a neutral country, was working on the United States government railroad. He gave up his papers and was so shunned by his fellows that he left his work, 75 miles from Anchorage, and walked in.

Vetch Aphid Is Checked. OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 7.—"I have plenty of vetch seed, but think I'll not sow it this year because the vetch aphid is so bad," writes an Oregon farmer to Professor A. L.
