SOCIAL AND PERSONALS

Mrs. W. C. Cooper of Bend arrived Saturday to be a guest at the home of her parents, Mr. and Mrs. D. Brumba, 113 Jackson street. She will remain for two weeks.

Newcomers being welcomed in Pendleton are Mr. and Mrs. C. E. Sholk and their daughter, Miss Catherine Sholk and their daughter, Miss Catherine Sholk, who arrived a fortnight ago from Portland. Mr. Sholk is state superintendent of the Bankers' Reserve Life Company of Omaha. They are domiciled at 519 Blaine street.

FRED BOOK HEARS OF FATHER'S DEATH

Fred Book of this city, received news this morning of the death of his father, J. G. Book of Sterling, Illinois, at the age of 78. Mr. Book, who has been falling in health for some time, is survived by nine children. One is a soldier in France.

Mr. Book was a visitor at the Round-Up two years ago and also four years ago, and was enthusiastic over the big show. He intended visiting his son this year during the Round-Up but his health would not permit.

Mr. and Mrs. Fred Book will be unable to attend the funeral because of the poor health of Mrs. Book, who is recovering from an operation.

Peasants Hold Bavaria.
AMSTERDAM, Nov. 11.—The soldiers and peasants' council at Munich now controls the whole administration of Bavaria. It was reported here. Kurt Eisner, socialist newspaperman, has been made premier and foreign minister.

EAST END TOWNS WILD WITH JOY

Joy is reigning supreme today in all the towns of the east end of the county. Immediately on receipt of the news at Freewater, Milton, Weston and Athena, the fire alarms were sounded and large bonfires started, and every conceivable instrument for noise making brought into play. Automobile parties arriving here from Freewater said the only safe way to reach their destination was to keep moving, as all were being held up and compelled to join in the jubilation.

PENDLETON FOLK AID FOREST FIRE VICTIMS

The committee that has been raising funds about Pendleton for the relief of those stricken in the Minnesota forest fires report the sum of two hundred and five dollars and fifty cents (\$255.50) which sum has been sent to the Finnish relief committee, 84 Lonsdale Bldg., Duluth, Minn. There is a sincere appreciation to all those who have assisted in the giving of this aid. MAT DEINING.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets
If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

LT. GEN. HUNTER LEGGETT

HYDROPLANES TO GUARD BASE PORT

Huge Balloon Carries Scouts on Look Out for Subs.

AMERICAN NAVAL BASE
France, Nov. 7.—Hydroplanes constantly watch and guard this great American port and the American shipping approaching or entering it to prevent attack by submarines. One of the planes lay on the water ready to start seaward as the correspondent visited the harbor. It looked very light and filmy for this desperate work and its gray body gave it the appearance of a giant moth settled on the water.

Overhead, 1,000 feet up, swung a huge lung-shaped balloon from the basket of which a naval officer and a sailor peered through marine glasses.

"They are on the lookout for submarines," said the sailor. "Their chief purpose is to report the whereabouts of a submarine, and the destroyers do the rest by forcing it under water. Even if submarines are off this port, they are practically helpless, if we can keep them under water. It is only when they come to the surface that they can launch their torpedoes with full effect. Torpedoes fired when the craft is under water may lack direction to make them dangerous. So that, after all, the problem for the destroyers is to keep the submarines under water, as well as to destroy them.

On shore scores of hydroplanes were ranged in two vast hangars and there were sheds for the balloons.

Whaleback Transport.
A big whaleback from the Great Lakes was off to port and to starboard with a massive freighter.

"That is a strange ship," said the sailor. "You will notice she has no upper deck or cabins. The whole deck rolls back, like the roof of an open-air theater and the deck becomes an enormous open hatch. It is like a huge open bowl, with no obstructions in lifting out the freight." The freight in this case was as curious as the rolling deck, for it consisted of 33 enormous Bogut locomotives, all set up and ready to move and with their tenders coupled. With the deck rolled back, locomotives and tenders were picked up by giant cranes and swung around on the gear-by-ways. Very soon these locomotives just out of the bowels of a ship, had steam up and were puffing off toward the front.

LIFT LICENSE BAN ON GIFTS TO OUR BOYS WITH ALLIES

WASHINGTON, Nov. 11.—Parcels post packages of Christmas gifts for American soldiers and members of civilian organizations serving with the British, French and other armies in the field against Germany will be accepted for shipment overseas up to November 26, and the senders will not be required to furnish a war trade board export license. Postmaster General Burleson has announced the ruling, which does not affect the special regulations made for Christmas shipments to the American expeditionary force.

Mary Scrapes Along On \$670,000 a Year

The fact that Mary Pickford receives \$670,000 a year for her work in moving pictures was revealed in the supreme court through the testimony of Mrs. Core Carrington Wilkoning, theatrical and literary agent, who is

the trench mortar fire. The French cited the company from Baltimore for the croix de guerre for the second time. One more time and the boys will be entitled to wear the fourragere. Before the war these Baltimore boys belonged to a coast artillery outfit. They volunteered to do trench mortar work when the call was sent out, and have rapidly developed into about the fastest outfit along the line when it comes to getting shells over on the Germans.

LIBERTY MOTORS 1000 PER WEEK

Production Stage Ahead of Transportation Facilities.

WASHINGTON, Nov. 7.—Production of American aircraft now has reached a stage where it is being limited practically only by facilities for transporting the airplanes to France. The production of Liberty motors during October reached a stage of 1900 a week, a goal which had not been hoped for, at least until December.

The latest official compilations show that since June 1 approximately 2500 fighting airplanes of all descriptions have been shipped to the American forces in France. When it is realized none of the helicopters at any one time since the beginning of the war has had more than 3500 airplanes actually in service, the significance of an American production of 1500 planes in five months becomes apparent. These 2500 planes included nearly 150 heavy bombers and the remainder were planes of all classes, including observation machines and day bombers.

Reports from all the production centers show the result rapidly growing. The American forces have been moving so rapidly during the last few weeks that it has been found necessary to give up some of the transportation space which was intended for airplanes to other material.

The reports showed there were more American airplanes awaiting shipment at points of embarkation than could be loaded.

In speaking of fighting airplanes, the single-seater plane, in which are fought the spectacular duels of the air, is not included. These types are changing so rapidly that officials say it never will be practical to build them elsewhere than almost upon the battlefield. All the American-built planes, however, are fighting planes armed and equipped to care for themselves on the duty for which they are designed.

INFLUENZA STRIKES HARD BLOW AT PARIS

PARIS, Nov. 2.—In Paris during the week ending today there were 2566 deaths, the greatest total since the beginning of the gripple epidemic here. Of the deaths reported 1262 were due to the lungs. During the last few days the number of deaths reported daily has been decreasing.

Anglers to Aid State.
HOOD RIVER, Or., Nov. 9.—Hood River sportsmen are joining hands with the state game and fish commission in the construction of a diversion dam near the mouth of Hood River to turn the water of the small stream into the Columbia in a deep channel and in a downstream course. The new dam replaces a structure washed out last December, when unprecedented freshets raised down the gorge.

Working with Uncle Sam!

Introducing The New Tea-Foil Package of Juxedo

The Perfect Tobacco for Pipe and Cigarettes

This new package renders a double service—it saves tin for the U. S. Government's war needs and saves smokers from the discomfort and inconvenience of the old-style tobacco tins.

The "Tea-Foil" Package has many advantages; it is—

- Soft and pliable
- Decreases in size as tobacco is used
- Tobacco does not cake in this package
- No digging it out with the finger
- Keeps the tobacco in perfect condition
- Costs you less than tin
- 10c a package

Try Tuxedo in the new "Tea-Foil" Package today.

The Tobacco "Your Nose Knows"

Guaranteed by The American Tobacco Co. INCORPORATED

Car will be here on O-W R. & N. siding Nov. 12, Tomorrow, Tuesday Afternoon

Where sack lots can be had direct from car. Those wishing less than sack lots can find same in the Easterly room of the Woodman-Eagle Building on Court street afternoons and evenings.

Nearly all of this produce was raised by Assessor C. P. Strain and wife in their war garden near Freewater and is of excellent quality. The potatoes, however, are mountain potatoes, Mr. and Mrs. Strain having sold their own irrigated potatoes in the patch and purchased others of

better quality for friends here. This shipment will be the last, and the prices are made high enough to cover expenses as far as possible and yet low enough to close it out quickly so that I may not be further interrupted by caring for it.
