FEDERAL AID TO SCHOOLS IS PLAN

\$100,000,000 UNDER CONSIDERATION

For Teachers, Physical Education, Immigrants, Illiterates.

WASHINGTON, Nov. 12.—A secretary of education is to be the next addition to the president's cabinet, if a bill now pending in the senate becomes a law.

The bill has the backing of the National Education association, was recommended in a recent report by the commission on emergency in education and has the support of Sen. Hoke Smith of Georgia, chairman of the senate education committee. It seems likely to have little active opposition.

The bill's title says it is "to create a department of education, to appropriate money for the conduct of said department, and to appropriate money for federal cooperation with the states in the encouragement and support of education."

One hundred million dollars a year is appropriated by the bill for subsidizing training of teachers, physical education, education of immigrants and adult illiterates.

The secretary of education is to be on an equal basis with other members of the cabinet, and is to have three assistant secretaries. The secretary's salary is fixed at \$12,000, and the assistant secretaries are to receive \$10,000 each. The appropriation continues for two years, incidental expenses, and general financing of the new department is \$500,000 a year.

It is proposed that the department inaugurate a system of attaches to American embassies abroad, to deal with educational matters and investigate educational methods in foreign countries.

One of the aims of the proposed law is abolition of illiteracy in America. The commission on the emergency in education found adult illiteracy one of the most serious obstacles to establishment of true democracy.

Federal aid to state efforts to improve educational conditions is to be given only when the state shows the proper spirit and enterprise by appropriating an amount at least equal to the sum paid it by the federal government, for improvement of its educational status in certain specific respects.

turned in neutral countries where they took refuge.

Among the officers named are: Kapitän Lieut. Schwelger, who, while in command of the U-50, torpedoed the Lusitania, in May, 1915. The U-50 was lost on the Danish coast in 1916, but Schwelger survived and was in command of the U-89, which was lost with all hands in September, 1917.

Kapitän Lieut. Paul Wagenführ, who sank the steamer Helian Prince July 21, 1917, and drowned forty of the crew, whom he had ordered to line up on the submarine's deck when the U boat was about to submerge. His submarine, the U-44, was sunk with all hands about a fortnight later.

The statement says it is significant that the authors of particularly atrocious crimes have expiated them speedily after their commission. It says the names of such men are carefully noted by the British Admiralty and that special endeavors are made to bring their active careers swiftly to an end. Several commanders, it is added, have escaped retribution by finding refuge in shore appointments.

Prominent among those named as having escaped retribution but whom the British navy has on its list are, according to the statement, Korvetten Kapitän Max Valentiner, who was responsible for many sinkings of vessels, among them the Norwegian steamer Magda, the Spanish steamer Pena Castillo, the Italian steamer Ancona and the British steamer Perla; Kapitän Lieut. Wilhelm Werner, for the sinking of hospital ships, and Korvetten Kapitän Freiherr von Forstner, who, when in command of the U-28, sank the British steamers Paluba and Agulla.

Britain Names 150 Commanders Who Met Retribution.

LONDON, Nov. 12.—Although the British government does not intend to adopt the practice of giving proof of official utterances made by its ministers, it has been thought desirable to print names of the commanding officers of 150 German submarines which have been disposed of in order to substantiate the statement of Premier Lloyd George in the House of Commons that "at least 150 of these ocean beasts have been destroyed."

A majority of the 150 officers mentioned are dead, some of them are prisoners of war, and a few are in-

HUN REVOLTERS TEAR OFFICERS' EPAULETS

COPENHAGEN, Nov. 11.—Workmen and soldiers throughout yesterday walked about under Den Linden and Friedrichstrasse, in Berlin, snatching shoulder straps from officers.

BY J. W. T. MASON (United Press War Expert.) NEW YORK, Nov. 11.—No incident of the German revolution can ever surpass in the intensity of its meaning yesterday's action of Berlin workmen and soldiers in tearing shoulder straps from officers in the public streets.

Arrogantly thrusting aside civilians and private soldiers who happened to be in their way has been one of the favorite occupations of German officers. It has been the established right of any member of the privileged class to exercise autocratic power in the streets. To push women, children and cripples into the gutter for failing to pay obsequious respect to a German officer has been an unchallenged right of the officer class. Just before the war broke out the reichstag attempted to exercise authority over a young officer at Zambert, who had shared a cripple in the street for an imaginary injury. The militarists cowed the reichstag so

"Suicide by Inches"

THOUSANDS of people commit suicide by inches!

If one should take minute daily doses of some irritant or poisonous drug, no particular effect might be noticed until accumulation of the poison made its action evident.

Yet how many realize that irritant and poisonous substances are formed constantly, even in health, during food digestion and the preparation of its waste for elimination?

If the bowels act regularly and thoroughly, such dangerous matter is safely gotten rid of.

But if constipation exists, there results stagnation of intestinal waste, increased production of poisonous substances, and their absorption into the blood, which carries them all over the body.

The result is disease or disorder, which, if neglected or allowed to continue, cripples or kills.

The victim of such self-poisoning commits suicide by inches. Constipation is a bad habit. It is a sin against the body.

But there is an even worse habit, a crime against Nature, the taking of pills, castor oil, laxative mineral waters, and salts to "force the bow-

els to move." Because such drugs do not cure constipation. They make constipation a habit. They do not prevent "suicide by inches."

On the other hand, the Nujol Treatment not only overcomes constipation, but prevents stagnation and makes self-poisoning impossible.

Nujol is not a drug, does not act like any drug; it is absolutely harmless. Nujol helps Nature re-establish easy, daily, thorough, bowel evacuation.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

PERFECT WOMANHOOD.

Perfect womanhood depends on perfect health. Beauty and a good disposition both vanish before pain and suffering. A great menace to a woman's happiness in life is the suffering that comes from some functional derangement which soon develops headaches, backache, nervousness and "the blues." For such suffering, women find help in that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, which for three generations has been restoring health to women of America.
