HAVE YOU MADE A WILL

Do you realize that if you do not dispose of your property by will your estate may be disposed of by law very differently from the way you would wish? The law respecting intestate estates can, of course, take no account of the special personal needs of each beneficiary. When you make your will why not insure efficient and economical management of your estate by appointing this bank as executor and trustee? The officer of the Trust Department will be glad to talk over with you this very important matter.

thoroughfares," said Mayor Ryan, seems to be emblematic of unbridled license and an insignia of law-hating and anarchy. In the same way as the black flag represents everything that is repulsive to ideals of civilization and the principles upon which our government is founded. For the preservation of public order, peace and welfare of the community only the American flag or the insignia of some foreign government recognized by the government of the United States should be displayed.
