TO DEMAND EX-KAISER DELIVERED

HOHENZOLLERN'S NERVES BREAK

LONDON, Nov. 29.—Premier Clemenceau and Lloyd George will meet here Sunday, discussing the procedure of demanding that Holland deliver the former kaiser to the allies. Britain and France are understood to be agreed that the demand be made. It is reported the Dutch are ready to comply. Marshal Foch and Colonel House may attend the conference.

NERVES SHATTERED.
AMSTERDAM, Nov. 29.—Count William Hohenzollern will soon leave for Amerongen Castle for treatment in a sanatorium near Arnhem. His nerves are shattered. It is said he has frequent fits of weeping. He has been unable to write for some days, owing to trembling. It is expected the allies will soon join in asking Holland to expel Wilhelm, offering him the choice of returning to the German frontier or surrendering to the entente.

Refuses to Salute.
Wilhelm seldom goes outside the castle gardens. During one of his walks he met an interned German soldier who refused to salute. An explanation was demanded and the soldier silently produced a small red flag. The attendant asked if he knew that the former kaiser stood before him. "Damn the Hohenzollerns. Six of my brothers died for them," he said. Wilhelm has taken no walks since then, riding in a closed automobile.

U. S. Probably Not Join.
WASHINGTON, Nov. 29.—The United States will probably not join with the entente in its reported plan asking Holland to surrender Wilhelm, according to state department indications today.

PREACHER DEFIES "FLU" BAN; ORDINANCE FOUND DEFECTIVE

A move on the part of the city health ordinance had the date of the former ordinance incorrectly stated. He therefore has refrained from bringing any action for fear of putting the city to fruitless expense in event the case should be contested. Rev. Lockwood today said that should a complaint be made against him he will fight it. He insists that only a dozen people were at the service yesterday and that no harm could result from the gathering. The question is now raised as to whether the ordinance is not sufficient to prevent a church meeting is worth any thing at all and if the whole city program for curbing the influenza epidemic will not fall down.

SEAS FREEDOM VITAL PROBLEM DEFINITION FACES WORLD, WIDE DIVERGENCE OF OPINION SURE, CONGRESS AWAITS MESSAGE

BY ROBERT BENDER.
(United Press Staff Correspondent.)
WASHINGTON, Nov. 29.—President Wilson today held his final conference with his advisers before completing his message to congress, which promises to be one of the most important of his career. It is expected he will announce his domestic policies. If congress meets promptly he will address it Monday, the president will sail Tuesday. It is evident he will face a wide divergence of views at the peace table on the principle of "Freedom of the Seas," which, with the league of nations idea, promises to be the center of the international diplomatic struggle. The president is apparently believing the question one to which there must be some "give and take" but thus far he has declined to commit himself specifically.

BY ED L. KEERN.
(United Press Staff Correspondent.)
LONDON, Nov. 29.—The definition of "Freedom of the Seas" is the most important problem now before the world. In relation to the league of nations it forms the basis for the chief points to be settled at the peace conference. Leaders of British thought have revealed a wide divergence of views. Great significance is attached to this fact, as a result of the allies' action in amending President Wilson's famous 14 points so as to permit them to enter the conference uncommitted to any definition of "Freedom of the Seas," which is destined to become the most vital feature of the new international relationship.

Labor leaders say they are "not in sympathy with the Mooney crowd and leaders say the are "not in sympathy with the Mooney crowd and that he "always was a red and never a laboring man," always opposing the American Federation of Labor until he got into trouble.

Governor Makes Statement

Governor Stephens, in committing the sentence of Thomas J. Mooney to life imprisonment, gave out this statement: "On July 22, 1916, 10 persons—men, women and children—were killed and about 50 others wounded in a bomb explosion during a Preparedness Day parade in the city of San Francisco. The parable was a patriotic manifestation into which the people of the city had entered with much spirit and loyal impulse. Manifestly, because of the occasion chosen, hostility to the nation's defense measures must have had a part in actuating the perpetration of so horrible a deed. It is not unreasonable to assume that a sympathy or even a detestable relationship existed between those murderers and the propaganda and violence then being engaged in throughout the country by agents of the German government. The case, as presented to the California courts was that of murder, without further evidence of motive than the impossible tenets of pan-German cause in the war are well known. Their wild pacifist theories fitted into the widespread activities of the kaiser's agents in this country."

Mooney Not Martyr

"I refuse to recognize this case as in any fashion representing a clash between capital and labor," he said, and he characterizes as absurd the propaganda that would make Mooney appear as a martyr to the cause of liberty. In support of this statement he quotes a letter from Alexander Berkman, outlining the plan afterward adopted for the Mooney campaign. "He denies that Mooney is a true friend of labor and characterizes his previous record as such that it does not enlist faith in him among law-abiding citizens, but says in conclusion that this particular case has been decided upon its merits."
