**CHARITY** begins at home we say. How about Prosperity?

Shall we build up prosperity in the East by buying Eastern products, or shall we "buy home products" because we want to see prosperity, like charity, "begin at home"?

HOME INDUSTRY LEAGUE OF OREGON

## GERMAN ARMY BEHIND GOV'T.

### Bolshevik Scope Uncertain Due to Underground Method.

LONDON, Nov. 28.—The political pendulum of Germany, which has been swinging between conservative socialists and bolsheviks, seems, for the present, halted midway, giving reasonable promise of some sort of unified government, with which it may be possible for the allies to negotiate peace. The situation is largely the result of the forcefulness of Kurt Eisner, president of the Bavarian republic, who gave the federation to clearly understand that Bavaria and other states will not tolerate either the old gang or bolshevik dictatorship. Social democrats, under Scheidemann and independent socialists under Haas, although temporarily partners in socialist coalition, are still rivals, as formerly. Moreover, each is especially superstitious of the other.

**Bolshevik Underhanded.**  
In the meantime, Liebknecht's bolshevik movement must be reckoned with. Its scope is uncertain, due to underground methods. It is probably growing in industrial regions, but is apparently making no headway in the army. Many soldiers' organizations are already strongly resolved to support the present government and national assembly. Therein, together with the natural Teutonic tendency toward organization and discipline, probably lies an assurance that the new Germany will not follow in Russia's footsteps.

## SPRUCE DIVISION PROPERTY TO BE STORED OR SOLD

### Demobilization Rapid, Department Heads Remain 4 to 6 Months.

PORTLAND, Nov. 29.—Orders dissolving the United States Spruce Production corporation capitalized at \$19,000,000 have been issued by Brigadier General Bruce P. Disque, commander of the spruce production division. The same orders designate the

## STOPS FALLING OF TREES.

Conflicting telegraphic instructions of the commanding general of November 12, 1918, the falling of trees in all governmental and cost plus operations will be discontinued at once. Where commercially justifiable, all trees felled will be bucked into commercial logs and yarded (including commercial logs), barked to water, rafted and held for future sale.

As troops are no longer required they will be reported to district commanders who in turn will advise this office.

All enlisted men on governmental operations will continue to receive the wages heretofore paid until they cease to be required for logging or construction operation, after which and until entrained for transfer to Vancouver barracks they will be paid from corporation funds at the rate of \$1.50 per day as extra duty pay, Sundays and holidays included. This extra duty pay shall be considered as an allowance for clothing and rations in addition to the government allowances and while drawing such pay all men will be utilized for policing camps, assembling tools, equipment, cleaning up debris and all other work incidental to closing operations.

**Demobilization Rapid.**  
All payrolls for extra duty pay will be approved by the district supervisors and contain the certificate of the squadron commander that the men drawing same actually performed such work.

From the date of entraining all men will revert to regular soldier allowances.

It is realized that officers and men are now desirous of getting back to their regular vocations and it is intended to permit them to do so as rapidly as their services become unnecessary to the government through closing out the affairs of the spruce production division of the United States Spruce Production corporation. At this time it is believed that the heads of departments will be required to remain from four to six months, and the commanding general requests that no officer apply for relief from duty until he has completely closed the affairs of his department.

The commanding general feels that no organization in the army has rendered a better account of itself than this division.

## LEADS ARMY INTO METZ AS MARSHAL OF FRANCE

Just before the French armies were to enter Metz, General Henri Philippe Petain, commander in chief, became the third marshal of France. The others are Marshal Joffre and Marshal Foch. At the outbreak of the war Marshal Petain was a retired colonel. He won his chief distinction by his heroic defense of Verdun.

## FIRST COMBINED HARVESTER ON PUSH AND PULL VARIETY

The combined harvester and thresher, or "combine," familiar sight in Umatilla county wheatfields, was first built and operated in 1862 by an Oregon man, Levi T. Davis, of McMinville, Oregon, who is still living.

A picture of the first combine ever built hangs in County Agent M. R. Shroek's office in the federal building, and from the photograph does not appear to have cut over about seven feet. This first machine was of the "push and pull" variety and was patented by Davis and his brother who began manufacturing machines in the Oregon Iron Works in Portland.

After several machines were made and sold, a fire in 1867, swept the Oregon Iron Works and destroyed all except the patent right and one machine. These were sold to D. M. Creary who shipped the machine to California and began manufacturing them there, afterwards selling out to Holt brothers.

Mr. Davis still has invoices for material and labor for construction of several machines dated 1867.

By a strange coincidence, a fire in the patent office in Washington, D. C., destroyed the model upon which the patent was issued. This model cost Davis Brothers \$200.

### British Captives Die In Hands of Turks

LONDON, Nov. 29.—A parliamentary investigation has disclosed that of 13,672 soldiers captured by the Turks, 3200 died and of 2222 others no trace has been found. It is believed they perished as a result of fiendish treatment at the hands of the Turks. It is known that many were flogged during a 500-mile march through the desert.

## WILL ELECT CONSTITUENT ASSEMBLY

BERLIN, Nov. 28.—At a meeting of government and state secretaries, a bill was completed for the election of an imperial constituent assembly, probably on February 10.

## ADMIRAL KNOW DICTATOR OF ALL-RUSSIAN GOVERNMENT

Russian officials in Washington speak highly of Admiral Alexander Kolchak, who, through a coup on the part of the Council of Ministers of the new all-Russian government at Omsk, has become virtual dictator and commander of the all-Russian army and navy. As commander of the Russian navy he blocked the German fleet's efforts to penetrate the Riga and other important ports in the Baltic. Admiral Kolchak visited America last year.

## "GETS-IT," A LIBERTY BOTTLE FOR CORNS

THERE'S ONLY ONE GENUINE "CORN-PEELER"—THAT'S "GETS-IT."

Ever peel a banana? That's the only "gets-it" corn treatment that will "gets-it" in a guarantee that you

No More Excuse for Corns or Corn-Pains Now!

won't finally have to gouge, pick, jerk or eat out your corns. If you want the pleasure of getting rid of a corn, be sure to get "gets-it." It is its wonderful formula that has made "gets-it" the corn marvel that it is, used by more millions than any other corn treatment on earth. A few drops on any corn or callus, that's all. It can't stick. It is guaranteed, causes no pain, work, dandruff, live, love and laugh as though without corns. "gets-it" is guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store, 3727 N. Lawrence St., Chicago, Ill. Sold in Pendleton and recognized as the world's best corn remedy by Talman & Co.

Letters to "William Hohenzollern" Express Hatred or Contempt.

AMERONGEN, Holland, Nov. 29.—The former German emperor went for a drive recently with his host, Count von Bentinck, accompanied by the usual police guard.

He almost daily receives flowers and dainties from friends, but as often letters or postcards are delivered at the castle addressed "William Hohenzollern" in which the senders express hatred or contempt. The missives probably are withheld carefully from the one-time emperor.

German inmates of the Wolfhazen Internment camp recently came to blows over the former emperor's portrait, which newly-arrived soldiers from the Flanders coast insisted should be removed or turned face to the wall. The opposing parties had to be separated forcibly.

## "MYSTERIOUS V. C." WINNER, WHOSE EXPLOITS HAVE JUST BEEN REVEALED, AND HIS MASCOT

CAPTAIN GORDON CAMPBELL

This is Captain Gordon Campbell, to whom was awarded the "mysterious V. C." and his mascot. Of the thirty recipients of that honor up to February, 1917, when he was decorated, he was the only one in which the specific act meriting the V. C. was not mentioned. The British admiralty has just announced that Captain Campbell was commander of several of the Q-boats which masqueraded as tramp steamers and other harmless craft. In one action his ship sunk a U-boat. In another his Q-boat was lost.

## COOTIE IS CONQUERED

THE "COOTIE" KILLER AND THE "LORD HIGH" EXECUTIONER.

The Salvation Army, which helps to curb to the physical needs of the army, has placed on the market its "Cootie Killer" which carries with it a positive guarantee to keep a boy cootieless for ever. It is a change of underwear occasionally. It is a change of underwear occasionally. It is a change of underwear occasionally.

Each division is supposed to have a big "decoiler" which rolls from place on its own power.

The vats are charged with a powerful vapor of some kind and, after 30 minutes, every cootie and all cootie eggs have been killed. While this is going on the owner of the clothes is being scrubbed off with a solution that smells like gasoline. When he puts his clothes on he is as clean and pure as the driven snow. And then he puts on the Salvation Army cootie bag in order to stay

### Declares Wood Ships Success.

SAN FRANCISCO, Nov. 19.—The wooden shipbuilding programs has proved a success, in spite of much derogatory talk, and the wooden hull will be of inestimable value in rehabilitating coastwise shipping," said Captain John K. Bulger, supervising inspector of hulls and boilers, who returned today, after a month's visit to northern ports.

"Wooden ships properly built should give desired results on their initial trips," said Mr. Bulger. "The steamers North Bend and Bandon, built at Portland, which gave a little trouble at first, underwent repairs and today are first class vessels of their type. These vessels have delivered cargoes of sugar from the Hawaiian Islands in perfect condition.

Do not let the other war work dollars feel lonesome—keep sending them company.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lacy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like cod liver oil—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.
