ORDER KAU TO LEAVE.
COPENHAGEN, Nov. 29.—Austria has ordered former Emperor Karl to leave the country because of anti-revolutionary agitation by conservatives, a Leipzig dispatch today says.

OVER THE NORTHWEST

Apples Sent to President.
HOOD RIVER, Ore., Nov. 29.—When President Wilson leaves for Europe to participate in the peace negotiations he will find aboard his steamer awaiting him a box of selected Hood River apples. The apples especially prepared, are en route east, the gift of K. Ishikawa, a Japanese orchardist of the Odell district.

Troop Movement Planned.
PORTLAND, Nov. 29.—Railroad officials are preparing to move the soldiers to their homes as soon as they are released from service at cantonments and barracks. A special information office has been opened at Camp Lewis to advise the men as to routes and rates, and ticket clerks will be added to issue transportation. It is expected that the first troops to leave American Lake will take trains Sunday.

The intention is to release the men at the rate of 300 to 500 daily as long as the necessary blanks are received and official machinery of discharge is set in operation.

Baptists Put Off Meeting.
PORTLAND, Nov. 29.—The Oregon Baptist State Convention, which was scheduled to meet at the East Side Baptist church last month, has been postponed until October, 1919. Postponement was voted because of the lateness of the season and the continued presence of influenza.

Devil Dogs Beat Doughboys.
TACOMA, Wash., Nov. 29.—Resorting mainly to good, old-fashioned plunging football, the undefeated Mara Island Marines thundered through the Camp Lewis eleven in the Tacoma Stadium yesterday for a 15-10 victory. Although the game was bitterly contested, the Marines held the upper hand throughout and won strictly on merits. A heavy, plunging backfield that ran perfect interference for the man carrying the oval, aided by an equally well-balanced line proved too much for the Army contingent, and, once the "Devil Dogs" got under way, the soldiers faced the inevitable defeat.

An eminent authority on pumpkin pies observes that the pallor recently noticeable in the face of the commercial pie, due, perhaps, to a shortage of molasses sweetening is now being replaced by a healthy brown tint. Thus in one more way is the world being made safe for democracy.

TROOP LOSS AT SEA LESS THAN TWO PER CENT

TOLL ONLY 2391 OF 21,500,000

Allied Vessels Transport Over 2,000,000 Animals.

LONDON, Nov. 29.—From the beginning of the war 21,500,000 troops of all the allied nations were transported by sea, by the allied navies, and only 4,291 men or .020 per cent lost at sea. More than 56,000,000 tons of supplies were transported for the use of the British naval and military forces and more than 21,000,000 tons additional taken across for other allies. In addition the allied vessels transported more than 2,000,000 animals. Since the beginning of convoys in March, 1917, the sailings of all the allies have totaled 75,029 and losses numbered only a few hundred ships despite the richest submarine warfare. The percentage of losses was highest in local Mediterranean traffic. The British fleet (including auxiliaries) grew from 2,590,000 displacement tons of 8,500,000 tons during the war, and the personnel of the British navy from 146,000 to 405,000 men.

SOLDIERS TO BE TAUGHT TRADES

50 U. S. INSTRUCTORS BUSY IN BRITAIN

Y. M. C. A. Plans to Instruct All Men in Industries.

LONDON, Nov. 29.—Thousands of American soldiers who have never had any trade are going to have a chance to learn one under the tutelage of Y. M. C. A. instructors before they return to America. It is hoped by this plan that the soldiers, no matter what their vocation before the war, will go back home better equipped than before they enlisted.

Fifty instructors from the United States already are busy with classes of American soldiers in the United Kingdom and at least fifty more are needed before January 1, 1919. It is estimated that for each of the one hundred Y. M. C. A. secretaries enlisted in this work five volunteer instructors can be obtained from the ranks of the soldiers. This would give a "faculty" in the British Isles of six hundred men capable of teaching 10,000 men in actual class work; between 10,000 and 20,000 in correspondence studies and of giving lectures every week to from 25,000 to 50,000 troops.

On New Zealand Plan.
The work in France is much greater, of course, and there the Y. M. C. A. is receiving the cooperation of the military forces in fitting the American soldier for a useful occupation when he has finished the job under Generals Foch and Pershing.

This great Y. M. C. A. plan is based upon the work the New Zealand Y. M. C. A. has done in England which has challenged "American-American" American workers have visited the New Zealand camps for convalescent troops in the southeast of England where the New Zealanders are cultivating intensively a 40 acre farm area where the New Zealand troops are learning to be better farmers than ever.

Technical instruction for American soldiers is to include the study of automobile and engines and aircraft engines; mathematics; from arithmetic to trigonometry; mechanical drawing, agricultural drawing and topographical draughting; plan reading and estimating; principles of mechanics; principles of electricity; arts and crafts; general principles of agriculture, which will include model farms and demonstration in truck gardening and the raising of poultry, hogs, cattle, etc., with courses in dairying and every other branch of farm work.

University to Resume Course in Advertising

UNIVERSITY OF OREGON, Eugene, Nov. 29.—A profession course in advertising will be given in the University beginning with the second term of work opening after Christmas. For persons who wish to become professional advertising agents the new course will be combined with

certain work in economics, commerce, typography and journalism to constitute a full professional preparation. The first term of the work will be devoted to the psychology of advertising, under the direction of Dr. E. S. Conklin, professor of psychology, and the spring term will be devoted to practical advertising under W. F. G. Thacher, professor of rhetoric. A similar course in advertising has been offered at the University formerly, but was crowded out for the first term of this year by necessary arrangements for class accommodations for the S. A. T. C. students.

WILLIAM HOHENZOLLERN.
This picture, the only one of the former kaiser to reach the United States since America entered the war, was rushed from Holland by a special courier. It shows William Hohenzollern as he looks after four years of war—his hair entirely gray, his face drawn and thinner, his face much wrinkled. It also shows, in a remarkable way, his withered arm and deformed left hand—never before have these defects been seen so clearly in a photograph. The picture was taken in the doorway of one of the ex-kaiser's former palaces, in a moment when he was off his guard.

FORD

THE UNIVERSAL CAR

SPECIAL ANNOUNCEMENT

It affords us a great deal of pleasure to announce that the production of FORD CARS has been resumed in a limited way, and as soon as possible the factory will release themselves from such war work as they have undertaken and again concentrate on production of the staple FORD, "The Universal Car."

Cars at first will come from the Detroit factory direct. Within a couple of months the Portland assembling factory will be in operation, but it will take four or five months to fully organize and again get back to the quantity production of before the war.

So as to enable the Detroit factory to make a just and equitable distribution it is necessary to have an idea of each territory's immediate needs so that shipments may come forward. Therefore

WE URGE ANY ONE DESIRING TO OBTAIN A FORD TO PLACE THEIR ORDER WITH US IMMEDIATELY.
