ASKS VOTE FOR WOMEN.
 With unstinted praise Wilson referred to the splendid work of the na-

tion's women saying, in part: "Their contribution to the great result is beyond appraisal. They have added new lustre to annals of American womanhood. The least tribute we can pay them is to make them equals of men in political rights, as they have proved themselves their equals in every field of practical work they have entered. These great days of completed achievement would be sadly marred were we to omit that act of justice."

The Whisper That Comes in the Night

The Glorious Knowledge Women Gain When a Wonderful Thought Steals Over Them.

Happiness in its most thrilling degree comes to woman with the thought of possessing a baby.

Every woman in the joy of coming motherhood should prepare her system for the unusual strain.
