### Mustering Out Spruce Men From Vancouver

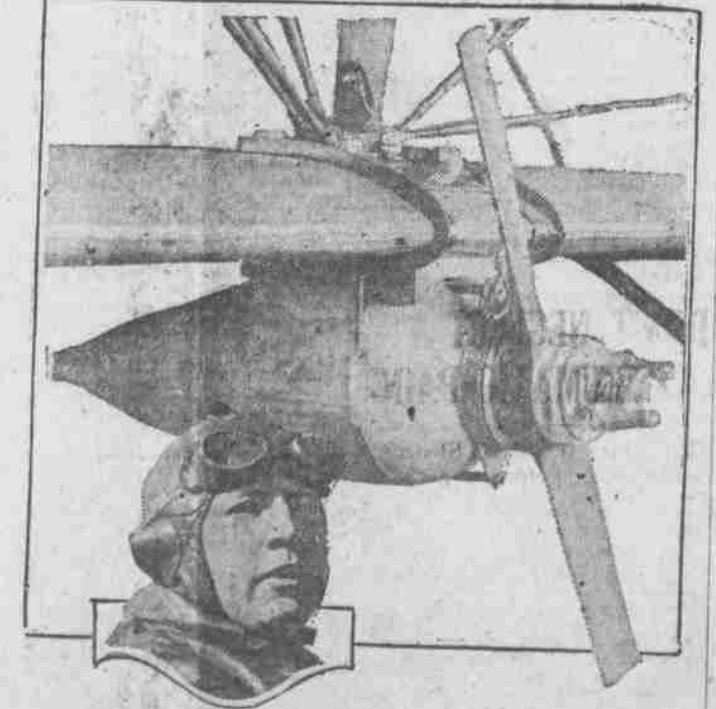

CAMP LEWIS, American Lake, Wash., Dec. 2.—Captain Edgar Perry, Lieutenant H. E. Scantlebury and S. L. Anril and approximately 100 non-commissioned officers and enlisted men were ordered last night to Vancouver barracks to handle the mustering out of the spruce production division. The hundreds of men who made up the spruce division are being recalled from the logging camps and sawmills of Oregon and Washington.

Among the first men to leave camp under the demobilization orders will be 104 colored troops from California, who were inducted into service, Au-

gust last. All will leave here next week, having undergone physical examinations yesterday.

Beginning next week men called for physical examination prior to being discharged from the army will be drawn from states or localities. This plan will be inaugurated as an aid to the railway administration, which under this plan would probably run special trains for the returning soldiers.

### WAR'S GREATEST INVENTION IS PHONE TO AVIATORS

The wireless telephone set used on the western front by allied aviators during the last six months of the war is proclaimed by the war department "the greatest invention of the war."

Col. Clarence C. Culver of Washington is the inventor. By this new invention it was possible to communicate with aviators after they had soared thousands of feet aloft, and to direct their movements. These beginners were sent up without instructors, and were directed by the flight commanders.

The invention followed eight years of experiment engaged in by Col. Culver and other wireless wizards, military and civilian, and was completed at San Diego, Cal., last February.

### QUESTIONS TITLE TO OFFICE WHILE AWAY

WASHINGTON, Dec. 2.—Senator Hitchcock, chairman of the senate election committee, today advocated the passage of a resolution declaring the president "unable" to perform the duties of his office while abroad. Hitchcock's attitude surprised other democrats. He said: "My personal opinion is that the senate should do something to settle the matter definitely—to say who is president. It is believed the supreme court, if called on to rule on a resolution declaring the president unable, by reason of his absence, to perform the function of his office, would hold against the best judge of his ability or inability to function." Hitchcock announced the committee would meet this week, discussing the Cummins resolution creating a senate committee to attend the conference.
