### French Harvest Big

#### Crop With Help of Boys of U. S. 'Morale Factory'

Corporal Fred Trezise, three hundred and thirtieth artillery, former county director of the Boys' Working Reserve, for Gogebic County, Mich., writes that he has gained an entirely new conception of the value of that organization since he has been serving abroad.

"I did not fully understand the mission of the Boys' Working Reserve or the keen forethought incident to its organization by the Department of Labor until, in passing through the Rhine, I saw the thousands of acres of grain and crops waiting for the harvest," he writes. "The men were all on the firing line, but the food supply of the country was to be saved by the boys. How frightened the United States was in organizing all of the available labor at the beginning of the war."

"According to predictions, France is harvesting the largest crops in her history, and it has been our privilege to help out the peasant women in the thrashing and pitching. Sometime ago we were stationed on the estate of a large chateau, and after the day's drilling and battery hiked out in groups and had some sport in feeding the thrashers and pitching the straw. The pitchforks are merely forked sticks.

"To the boys at the front nothing is more encouraging than the wholehearted support of the whole Nation,

and I am certain that the spirit of young America in the production of food and war materials will thrill the hearts of the 'Buddies' at the front. The 'morale factory' is really back home."

### BAKER BOYS DIE AT FRENCH FRONT

BAKER, Ore., Dec. 2.—Mr. and Mrs. B. C. Morig, of Baker, have received news from the war department stating that their son, Private Edward Morin, was killed October 15, at the front. Private Morin was 26 years of age and had lived in Baker all his life.

He entered the service June 25 of this year and sailed for France August 2. He has a brother Charles Morin, who left Baker with a draft contingent and landed in France in September. Besides his parents, Private Morin leaves seven brothers and six sisters.

A cablegram received here Wednesday by Mrs. A. Olsen announced the death of her son, Harry Thompson, in France from pneumonia. The young man was raised in Baker county and was 23 years of age.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, heavy headache, or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning luke bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as missions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost taste-
