WASHINGTON, Dec. 9 -The war department will soon ask congress to authorize a peace time standing army of half a million. According to present plans the department does not contemplate recommending universal military training. These features of the department's army reorganization plans were learned today from sources close to both Secretary Baker and Chief of Staff March.

FIRST PICTURE OF SURRENDERED U-BOATS AT HARWICH, ENGLAND

No cause beyond despondency has garding the suicide of Frank V. Pedro, ased 50 years, wealthy sheepman of this county, who died Saturday as the result of a done of streamine. Pedrois estate is in good shape, as a will made a week also shows. He left to his wife and daughters, Marsaret, Josephine and Agnes. Ar. Hedro, in daying the streenine at Taliman's druit store, said that he wished to use it to kill magples who had been molesting his property. He took the poison at the residence on FAILED TO TAKE HIS QUOTA IN UNITED WAR FUND DRIVE

Central Loyalty Committee of the Imatilla County Patriotic Service League herewith presents the names of A. A. Cole and Ed Nels son, both of Pendleton, as citizens who have failed and refused to contribute to a patriotic war. funds without good cause.

Mr. Cole is a retired sheepman.

He owns in this county in the neighborhood of more acres of property in this county is more than \$33,000. We usserstand be also owns property in Morrow county and we believe that \$100,-000 is a conservative estimate of his wealth. So far as we know be has no dependents.

Our records show that he sub-scribed for \$10,000 worth of Libcety Bonds of the second issue and none since or before. He has contributed 865 to the Red Cross, and this is the extent of his donations to war purposes to the best of our knowledge, He was rated for \$75 in the United War work campaign and has refused to give anything. To one of our members who conferred with bim after his rail are to meet with the committee to discuss the platter, he expressed no objection to the amount but made the rather movel and altogether tredecant proposal to subscribe the amount providing the committee would druft a bill for presentation to the lexislature incorporating his ideas for the writing of all forms of insurance by the county. It is needless to say that such a com-promise could not be considered. It below no part of the crossization's functions to promote any-

one's hobites.

For one whom the war has touched only to carried, the committee feels that Mr. Cole is making a poor recounting to the county for his citizenship. It leaves the public to form its own

The case of Mr. Nelson is somewhat different. He is a working man, a harber by trade. There has been hardly a war drive that his not brought in complaints of his attitude and mo complaints have been received between drives. He purchased a \$100 bond of the Fourth Liberty Loan but we know of no other subscription or contribution he has made to war purposes. The committee understands, however, that his wife has contributed to services and does not wish in the least to reflect upon her patriot-

Mr. Nelson's attitude has been variously interpreted, Some have defined him as an extreme pacifiet some as a religious fanatic and others as an anti-Amer-ican. Invited to appear before the committee with explanations be replied with a letter in which he referred to the organthatlans for vinose war activities the United War Work emupation was put on as a "soldatons transl and an abstimutation of the carrie in the sight of Jebovah" and it which be sought to justify his stand by scriptural passages, Obvicusis Mr. Nelson culors the role be has created for himself and finds pride rather than shame in his conduct during the cap. Threakful that the country has not feel to crity upon such as be to Dubt its builtes the com-mittee is willing to leave him to whatever entoyment he may find in explaining to the boxs, who affered their all, who he could
