classes at such places will be reached through army correspondence schools. The great universities of France and England have opened their doors to men of the American Expeditionary Force. An American Expeditionary Force. An American how who left college, for instance in his sophomore year to enter the army will be able to continue his college work in France or England; for which credit will be given when he returns to America. The same facilities in the way of instruction and furloughs will be extended to those who wish to learn trades, and to those who have need of the more elementary forms of education.

Mayor I. J. Stance in the surface into exchols, more information of the more schools. The same facilities in the way of instruction and furloughs will be extended to those who wish to learn trades, and to those who have need of the more elementary forms of education.

In the curriculum as it stands ten-tatively, the proposed textbooks on the United States include those on physical geography, economic and commercial geography, and historical Standard Text Books.

Nandard Text Books.

For such instruction standard texts the books will probably be used in most instances, but they will be supplemented by special books, pamphlets, atlases of the United States and by which the states are the states and by the states are the states and by the states are the states are the states and by the states are the states ar

The nature of the textbooks show The littling of the fextbacks show, the effort which will be made to bring the citizens soldier into clesser relation with the social group in which he is to resume his part. He will have a better understanding of his economic relations to other individuals and to the als and to the rather, and of his obtications to society. This of course, as

geography, showing growth of the country as a world power. Economic political and literary history is also covered; and there are succial books on government, glate and national, and on the government of cities.

Mayor P. J. Sandischasses at such places will be reached man urged homediate action to put

of the more elementary forms of education.

Plenty of Time.

That there will be ample time for operation of the program is assured by physical reasons. Lack of formage alone will prevent the rapid return of our men to the United States and while their transportation already has begun, there will be thousands who will be held abroad either because tomage is lacking or because they have special duties to perform. Necessity for the realization of the educational program is so compelling that it will be put into effect regardless of the great obstacles which exist.

men; from those who have a com-plete understanding of their obliga-tions and relations to those who are not and perhaps never have been in real touch with their life at home. Personnel is Obstack. Personnel is Obstacle.

One of the most formidable obstacles before the commission is that of providing personnel for the work. If the United States were stripped have of teachers, still there would be fardly enough for the needs abroad, and this problem has been at least partially solved by the acceptance by the army of the responsibility of providiarmy of the responsibility of provid-ing instructors from its ranks. There are thousands of men in olive draw who are capable of giving the kind of instruction needed; and the X. M. C. A. will be hard enough pressed to get men to initiate and direct the work. These men must naturally, be professionally

home, cause the congestion,

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hat water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent ats sponge-like pores from clogging with indigestible material sour bile and poisonous toxins, says a moted physician.

If you get headaches, it's your liver, if you catch cold easily, it's your liver. If you wake up with a bad laste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanliness. Your liver is the mose important, also the most abused, and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent, calomet, which is a dangerous, sallivating chemical which can only be assed occasionally because it accumulates in the themes, also attacks the bones.

Every man and woman, sick or wand acceptables be millitary aviators.

Every man and woman, sick or wand acceptables be millitary aviators.

Washington, Jan. 8—Low fly-mand acceptables be millitary aviators.

bones.

Every man and woman, sick or well, should drink each morning hefore breakfast a sioss of hot water with a teaspoonful of limestons phase and howels the previous day's indigestible material, the poisons, sour bile and toxins thus cleansing, sweetening and freshening the entire asiminatory cansi before purious more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate for it is harmiess and you can eat anything afterwards. It is inexpensive and almost usefuless, and any pharmacist will sell wyou a timeter point, which is sufficient for the case of exquiar army officers, and the cause of exquiar army officers, and the cause of exquiar army officers, and the cause of exquiar army officers, and

a Benconstration of how hot mater and the case of regular army officers and limistone phesiphate cleans, within the case of all other officers prolittes and freshens the liver, keeping ceedings with a view to their discharge you feeling fit day in and day out. from the service will be taken.
