Addressing a crowd later, Liebknecht said: "Government supporters have just attempted to lynch me, but we routed them. We have formed a revolutionary committee."

FINGERS OF PADEREWSKI ARE INSURED

LONDON, Jan. 10.—There is considerable uneasiness in insurance circles with regard to the case of Paderewski, who is considered an unenviable risk since he became embroiled in the fierce political maelstrom of Poland. The pianist is said to be one of the most heavily insured persons in the world, mostly in British companies. He is insured not only for his life, but for his limbs as well. Each of his fingers are said to be individually insured for a very large sum against any accident or violence that might interfere with his execution on the pianoforte. This is carried to such extent that some of the policies hold the insurers liable even for the breaking of a nail.

No More Soup Kitchens for U. S.

WASHINGTON, Jan. 10.—Discussing reconstruction problems before the senate committee on education and labor, Samuel Gompers, president of the American Federation of Labor, said people of the United States would get countenance a condition of industrial stagnation after the war. "There can be no repetition in the United States of the same conditions that prevailed in 1892 and 1894, when men and women were hungry for the want of employment," he added. "The problem to be met at this time he said, is as great as the problem of winning the war."

Believe Agreement Will Be Complete

LONDON, Jan. 10.—The agreement of Britain and the United States on broad outlines of peace settlement is a happy augury for a satisfactory conclusion of the peace conference, American Ambassador Davis declared in a speech at the Pilgrims Club today. He was entertained there at luncheon to welcome him to England. He said he believes the two nations to be as harmonious as they were on the general outlines.

TAXING SPINSTERS FOR WORTHY CAUSE

LONDON, Dec. 17.—(By Mail)—English shop and factory girls planning "demobilization weddings" are forming trousseau clubs. Members pay weekly instalments ranging upwards from one shilling, or 24 cents. At regular intervals drawings are held at which some member receives the whole amount in the club's treasury with which she buys her trousseau, furniture or household linen. The club's existence continues until each member has won the drawing.

SIMS TELLS BRITISH OF JELICCO'S FALL

LONDON, Jan. 10.—Admiral Sims at a recent dinner said it was Jellicoe who conceived the convoy system that beat the U-boats and who put it under way "just before he was fired out." Jellicoe was succeeded by Beatty at the helm.

Has Used Chamberlain's Cough Remedy for Fifteen Years

"We have used Chamberlain's Cough Remedy in our family during the past fifteen years. I have taken it myself and have given it to the children for coughs and colds, and have found it to be a quick cure for these complaints," writes Mrs. William C. Proffit, Penna., Ill.

It's Dangerous to Neglect a Cough

Never allow a cough to hang on week after week. A cough is usually a symptom of some disease of the throat or bronchials and may well be regarded as a signal of danger. No one can tell what serious diseases may follow when it is neglected. As a rule the disease that causes the coughing may be cured by taking Chamberlain's Cough Remedy. In more than nine cases out of ten it is all you will need.

Very Much Surprised

Some time ago Mrs. Ella Wright, Chillicothe, Mo., was troubled with indigestion and had frequent bilious attacks. She procured a bottle of Chamberlain's Tablets and was very much surprised at the quick relief which they afforded.

lines on this order: "Oh, so he WAS fired out." And one commented that it was said that the news had to be given them by an American.

SPANISH INFLUENZA--A NEW NAME FOR AN OLD FAMILIAR DISEASE

Simply the Same Old Grip That Has Swept Over the World Time and Again. The Last Epidemic in the United States Was in 1889-90.

ORIGIN OF THE DISEASE

Spanish influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

THE SYMPTOMS

Grip, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

THE TREATMENT

Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only "cure" for influenza and will throw off the attack if only you conserve your strength. A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. There are chiefly pneumonia and bronchitis, sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or more according to the severity of the attack.

EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grip germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck and the heat of the

KEEP FREE FROM COLDS

Above all, avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs. Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary teakettle. Fill half-full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's croup or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects.

Why Meat Prices Vary in Different Stores

Prime steers.....	\$13.50@15.00
Good to choice steers.....	\$12.00@13.50
Common to medium steers.....	\$10.75@12.15
Yearlings, fair to fancy.....	\$8.00@9.00
Fat cows and heifers.....	\$7.50@8.50
Canning cows and heifers.....	\$7.00@8.00
Hulls, sides to best.....	\$2.50@3.00
Poor to fancy calves.....	\$7.00@8.00
Western range steers.....	\$10.00@12.00

These newspaper quotations represent live cattle prices in Chicago on December 30th, 1918.

The list shows price ranges on nine general classified groups with a spread of \$13.85 per cwt.—the lowest at \$6.50 and the highest at \$20.35.

Why this variation in price? Because the meat from different animals varies greatly in quality and weight.

Although the quotations shown are in nine divisions, Swift & Company grades cattle into 34 general classes, and each class into a variety of weights and qualities.

As a result of these differences in cattle prices, (due to differences in weights and meat qualities), there is a range of 15 cents in Swift & Company's selling prices of beef carcasses.

These facts explain:

- 1—Why retail prices vary in different stores.
- 2—Why it would be difficult to regulate prices of cattle or beef.
- 3—Why it requires experts to judge cattle and to sell meat, so as to yield the profit of only a fraction of a cent a pound—a profit too small to affect prices.

ROOSEVELT ESTATE VALUED AT \$500,000

WASHINGTON, Jan. 10.—A naval personnel of 225,000 men for the year beginning next July will be recommended in a new naval bill, house bill committee today said. Figures are 25,000 below those Secretary Daniels set and considerably less than naval officers asked.

California Legislature Reports Favorably On Dry Amendment

SACRAMENTO, Jan. 10.—The Sheppard dry amendment was today reported favorably in both houses of the legislature.

OYSTER BAY, Jan. 10.—Colonel Theodore Roosevelt's will, made in 1912, was read to members of the family at Sagamore Hill today and probably will be filed with the surrogate of Nassau county tomorrow. Although the value of the former president's estate was not known, it was understood to amount to not more than \$5,000,000. According to Attorney George C. Cobbe, of New York, who read the will, the document provides that the entire estate, except the family silver and plate, shall be held in trust for the widow during her life, and gives her power to dispose of it by will as she sees fit. In the event she leaves no will, the estate is to be divided in equal parts among the children.

The silver and family plate, Mr. Cobbe said, are to be divided among the children, as is a \$60,000 trust fund left to Colonel Roosevelt by his father.

The Truth is sometimes painful. For instance when the doctor says one must give up the deary loved cup of coffee.

Happiness follows however when one finds out how delicious and health making is the pure cereal drink
