GIVE WESTON HEROES THANKS FOR SERVICE

(East Oregonian Special.)
WESTON, Jan. 21.—A community committee has been appointed to welcome the boys as they return to Weston from Uncle Sam's service. In recognition of services rendered the committee has had printed and neatly framed for presentation to each returning soldier the following memorial: "We deem it fitting to express to you the appreciation and gratitude of the community of Weston. This community is proud of the gallant young men who have represented it while serving under the Stars and Stripes, on land or sea, in the great War for world freedom. In the full flower of their young manhood they have at all times bravely given their lives—so full of promise—if such sacrifice were needed, to save their beloved land from the peril now so happily averted. We love them and we admire them, for they are ours to a nearer and dearer degree than they are the nation's; and when each and all return to us, we greet them with rejoicing hearts and open arms. We further extend to you the assurance of our aid and support in securing such employment as you may now wish to enter."
Signed: J. M. Banister, Mayor, S. A. Barnes and J. H. Price, committee. Attested by J. W. Porter, city recorder.

FRENCH DEPUTY ACCUSED OF ENEMY DEALINGS DEAD

PARIS, Jan. 21.—Louis Turmel, representative of the Chamber of Deputies for the Cotes-du-Nord, who was arrested in October, 1917, on charges of trading with the enemy, is dead.
The discovery of 27,000 Swiss francs in the cloak room in the Chamber of Deputies used by Deputy Turmel, was one of the first disclosures in the investigation of the "defeatist" movement in France. Turmel refused to divulge the origin of the money and, with his wife, was arrested. In July, 1918, it was announced that Deputy Turmel would be charged with revealing intelligence to the enemy, an offense punishable by death.

OVER THE NORTHWEST

Spruce Probe Not Over.
OLYMPIA, Wash., Jan. 21.—Notwithstanding his contention that there was nothing further to investigate in connection with the aircraft production service, Secretary of War Baker notified Senator Jones of Washington, today that General Chamberlain, inspector-general of the army, is now on the way to the Pacific coast to make a "fresh and searching investigation." Secretary Baker says that in view of complaints made against the Siemens-Carey company, "General Chamberlain has himself, by my direction, now gone to the coast to insure completeness and thoroughness of the inquiry."

Whitney Depot Is Burned.

BAKER, Jan. 21.—The Sumpter Valley Railway depot at Whitney was destroyed by fire Saturday afternoon. It is supposed to have caught from a defective fuse. A number of passengers who were at the station attempted to extinguish the flames, but the fire had gained such headway that their efforts were unsuccessful.

Influenza Again Takes Toll.

SALEM, Jan. 21.—Influenza again took toll among those connected with the legislature when William Fraley, clerk for Representative W. C. Bolton, of Hood River and Wasco counties, died Saturday night in a local home as the result of that disease. He was the son of Mr. and Mrs. C. M. Fraley, of Grass Valley, and contracted the disease since coming here.

Wool Price Is Protested.

BAKER, Or., Jan. 21.—Members of the Baker Union Wool Growers' Association, held on January 14, adopted resolutions protesting against the government's action in reducing the price of the 1918 clip from 5 to 20 per cent below the schedule for the year 1917. The growers say the prices for last year were highly successful, and they believe the schedule should continue until the present high cost of production decreases.

Representative Dodd Sends Bill.

SALEM, Jan. 21.—Representative Dodd who has introduced a bill to prohibit teaching of any subject in the schools except foreign language subjects in anything but the English language, has sent copies of the measure to friends in the Idaho and Washington legislatures with the hope of securing a uniform enactment of it in all of the Pacific northwest states.

Colby Was Man of Frontier.

BEAVENTON, Or., Jan. 21.—Charles W. Colby, who killed his wife and himself at their home, near here, after writing a note to a friend saying he had previously killed three other men was a man of the frontier. His mother died when he was a mere babe and his father, a steamboat captain on the Sacramento river, raised him on the boats until Colby was 11 years of age when the father died and left him an orphan on the water front of San Francisco. Here he lived as a wharf rat until he reached Beaverton, when he drifted to the place and became in time a cowboy, a plowman, a cattleman and a sheepman.

RUSSIA ALONE IS OUT OF 5 NATIONS' HANDS

BY J. W. T. MASON
(United Press Staff Correspondent)
NEW YORK, Jan. 21.—Rapid action by the peace congress in settling affairs of the world can be expected from the manner in which the unwieldy membership of 25 powers has been cut to a steering committee of the "big five." The destiny of civilization is now in the hands of America, Italy, Britain, France and Japan. Whatever they decide must be accepted by the lesser nations and central powers as well. Russia alone remains outside the authority of the peace congress. The Russian situation is second in importance only to the League of Nations.
Negotiations Inevitable.
The machinery for quick decisions having been created by the peace congress, there is no longer any reason for an indefinite refusal to face the problem of what is to be done with Russia. Peace delegates cannot adopt the attitude of judge toward Russia because they have not at their disposal sufficient forces to compel obedience to their demands. It is the desire of France that this course be pursued, but the refusal of the United States and Britain to permit their armies to be used for a Russian campaign has made the French proposal impossible. In settling with Russia, therefore, it is necessary for the peace congress to enter sooner or later into formal negotiations with whatever Russian faction can give the best assurance of stability.

INQUIRY IS BEGUN TO ASCERTAIN CAUSE OF A FATAL EXPLOSION

Boston, Mass., Jan. 20.—Investigations are under way to fix responsibility for the explosion of the gigantic molasses tank on the waterfront Wednesday, causing the death of 11 persons, the injury of 46 and property damage estimated at \$90,000.
The debris is being searched for persons still missing. All of the identified dead and injured were local people. Among the dead is John Lechner, a brother-in-law of the late John L. Sullivan, famous pugilist.
The explosion was believed to have been caused by a mixture of air and gas within the great tank, the largest on the Atlantic seaboard. In the opinion of chemists, steam pipes, fixed in the tank to warm the molasses, caused the gases to form.

SOLDIERS, SAILORS TO BE FORESTEERS

SPOKANE, Wash., Jan. 20.—So far as possible, returned soldiers and sailors will be given preference in employment by the forest service in Idaho and Montana. It was announced today by Assistant District Forester A. P. Preston, of Missoula, at the closing session of the forestry fire prevention conference.

Disability Soldiers Can Be Used for Lookout Work.

"Disabled soldiers can be used for lookout work," stated Preston. "We employ about 40 lookouts. In former years we have used about 20 extra men at the opening of the fire season. This year, however, the number will be increased to from 150 to 1000. The conference closed with final reports of committees."

Tips in Public Places IBI.

STATE CAPITOL, Salem, Jan. 21.—Giving of tips is hit by a bill from Representative Roman in the house today.

He Would Prohibit the Practice by Common Carriers, Hotels, Restaurants, Clubs or Any Other Place where the Public is Given Service.

Stay off the damp ground, avoid exposure, keep feet dry; eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.
