## NEW RATES LOWER ON SHORT CALL SERVICE

On short call long distance business, such as from Pendleton to the other towns of Umatilla county, the new telephone rates grant a longer time for conversation without any increased charge.

For instance under the old rate a person could talk to a party at Athena for one minute for 15 cents and paid 10 cents for each additional minute of conversation.

Under the new schedule one may talk, under the station to station rate, for five minutes for 15 cents and pay five cents for each additional minute.

Under the person to person rate a person may now talk to Athena for three minutes for 20 cents and pay five cents per minute for each additional minute.

It will thus be seen that conversations to points in the county will be cheaper than heretofore, particularly if the conversation be an extended one.

Manager Murray says that in general the new rate is beneficial to patrons using short call service but that the benefits will be more pronounced in the east than in the west, because settlement here is sparser than in the east.

## BOND FORGER READY TO "PAY" FOR CRIME

M.H. CUTTER

Four years of continued, methodical forgery, and then the knowledge that he is happy for the first time in years. That is the record of Millard Hawthorne Cutter, Chicago broker and confessed forger who has been turned over to the grand jury, charged with bond forgeries aggregating more than \$60,000.

"I wouldn't trade places with a king tonight," Cutter is reported to have told the officers arresting him. "I am happy for the first time in more than four years. I have stopped lying to myself. Yesterday I was worth a million; tonight I have my clothes, two magazines, two packages of chewing gum and a prayer-book. I am content. I am ready to pay for what I've done."

It appears that the international peace conference will not have much peace if it does not give economic problems precedence over political problems.

## Emergency Public Works Board Urged

WASHINGTON, Jan. 21.—Senator Kenyon today introduced a bill creating an emergency public works board to provide immediate work for the unemployed. The measure appropriated \$100,000,000 for the immediate beginning of public works. It would be used to enable any city, state or federal agency lacking funds to proceed with public work now or any time in the future when extraordinary unemployment exists.

Return to Fund. The money would later be returned to the fund so that all the time the sum would be available for meeting emergency conditions. A further provision for money to expedite public work in times of unemployment is made by empowering the war finance corporation to make advances to states, which states may then allot to cities and counties. The money would be repaid in 10 years.

# Classified Advertising Divides this Paper's Readers Into Different Groups

One group of readers will read all of the Situations Wanted Ads—because every person in that group is looking for a worker!

A second group of readers will read all of the Furnished Rooms to Let Ads—because every person in the group is looking for a furnished room.

A third group will read all of the Real Estate Ads—because every person in the group is a prospective buyer of real estate.

A fourth group will read all of the Business Opportunity Ads—because this group consists of people who MAKE THEIR MONEY WORK FOR THEM—and who are ALWAYS looking for GOOD JOBS FOR DOLLARS!

Thus every classification draws to itself a group of readers influenced by self-interests—to everyone of whom that classification of ads. means PERSONAL OPPORTUNITIES.

When you place a want ad in the East Oregonian it therefore has an audience awaiting it—an audience of alert people, anxious to consider your offer or your want, and to do business with you if your proposition is plausible.
