YANKS NOT TO GO HUNGRY THIS YEAR

TOURS, Jan. 25.—Whoever goes hungry in Europe this winter it will not be the American soldiers. The daily stocks in hand reported by the Quartermasters department of the American Expeditionary Forces gives an idea of supplies only when it is remembered they represent reserves held between daily consumption and arrivals known to be en route. Potatoes furnish a striking example. The stock on hand at the last report was 3,200,000 pounds and yet the American forces are receiving 50,000 tons of potatoes a month which makes 60,000,000 pounds chiefly from Ireland. Potatoes being perishable it would not be wise to keep double the daily stocks on hand.

Salsor and his associates was formally disowned by the supreme war council today. It is believed the American proposal—appointment of a special mission to investigate thoroughly the culpability of all persons responsible for the war—will be adopted. Penalty for the German nation is also being considered. It is now assumed that the indemnities will be limited to reparation for damages but the sum will be large. There are now, actually, no wet states—there are dry states and states hanging on the line to dry.
