"BUY AND BOOST" HOME PRODUCTS. This is the first day of the "Home Products" Campaign, which we are featuring for the purpose of acquainting our citizens with the broad range of articles manufactured by local industrial establishments, and to show a greater preference for local brands will mean greater prosperity for our city, our industries, our merchants and all of us, who are proud to call this city "home."—East Oregonian.

**D**OES our city know itself? Do the thousands of people residing within its boundaries appreciate the many advantages it has to offer, and are these same citizens doing their share in making this a bigger, better, happier, more prosperous city?

The purpose of this "Home Products" Campaign is three-fold.

First—To familiarize our home people with the goods manufactured by our home factories and to promote a more general preference for local brands.

Second—To impress firmly on the mind of every citizen the good to be derived from patronage of "home industries."

Third—To bring into closer relationship the manufacturers and consumers on the very practical and demonstrated theory—that the more home-made goods that are bought here the more prosperous this section will become.

If our citizens can be made acquainted with the articles produced here at home there will be a larger sale of these articles and the output of our manufacturing establishments can be greatly increased. Increased business for our home industries will mean greater employment for our citizens, greater commerce for our city and greater prosperity for our people as a whole.

We know that you, Mr. Citizen, will do your part by enlisting in this campaign—making it a rule to buy and boost home products at every opportunity and getting your friends and neighbors to do likewise.
