YANKEE TROOPS LITTLE AFFECTED BY TUBERCULOSIS

COLORADO SPRINGS, Feb. 13.—There is little tuberculosis among the American forces in France and that which has been detected is due to influenza and was contracted from the French, according to Lieut. Col. Gerald H. Webb, prominent local specialist who has been tuberculosis expert

for General Pershing in France for ten months. He returned here Saturday to attend the funeral of his father-in-law, J. A. Haver.

Lieutenant Colonel Webb declares that the influenza was serious, even in the front line trenches, 10 per cent of the fighting effectives having been ill at one time during the early fall. He stated that out of the 2,000,000 men who arrived in France only 2,000 had to be sent back for tuberculosis, so rigid were the examinations of the men before they were allowed to sail overseas.

LEGISLATURE NEWS

People Must Decide.
SALEM, Feb. 15.—The joint ways and means committee of the legislature Thursday night reached the end of its rope under the 6 per cent tax limitation. It has approved appropriations which will consume all the money that can be raised by the state during the next two years with its present means.

By unanimous vote the committee went on record in favor of referring to the people at a special election to be called at the earliest date consistent with good business, all appropriation bills which are approved by the legislature in excess of the 6 per cent limitation.

A special subcommittee is drafting a resolution designed to carry into effect this policy, and it will be introduced in the legislature immediately.

Districts May Bond.
SALEM, Feb. 15.—Plans for organizing highway improvement districts which are given authority to issue and sell bonds up to 10 per cent of the assessed valuation of such districts are embodied in senate bill 260, which was passed by the senate.

Guard Factions Clash.
SALEM, Feb. 15.—All the heavy artillery of the warring factions in the Portland military world were concentrated before the house committee on military affairs Thursday night. It was the same old fight between the Multnomah Guard and the Oregon National Guard—now federalized—with only a change of settings.

The Multnomah Guard was represented by Colonel Lewis P. Campbell, Major D. E. Bowman and Senator F. C. Howell, with Colonel W. C. North, judge advocate General Frederick Deane and Captain A. C. Hill representing the Oregon Guard, reinforced by the addition of Major Richard Deitch of the Oregon state police.

Program Changed.
SALEM, Feb. 15.—Once more the reconstruction program has switched

around. The plan to pass the Sheldon bill creating a reconstruction commission has been abandoned and now a program with four features as its basis is being pushed out by a committee consisting of F. W. Mulkey, John K. Kollock, H. S. Hudson, Franklin T. Griffin, A. F. Flegel, George L. Baker and City Attorney LaRoche of Portland.

This war was fought to make this world safe for democracy, not for chaos.

There is a car that went thru "No Man's Land,"
It was wonderful to see;
Over field and trench took the Yanks and French,
It will live in their memory.
Mid shot and shell it went thru hell,
'Tis the work of master hand,
Thru the awful fight stood the Willys-Knight
'Twas the car of "No Man's Land."
