## GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

### HAIR STOPS FALLING OUT AND GETS THICK, WAVY, STRONG AND BEAUTIFUL.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderrine" hair cleanse. Just try this—moisten a cloth with a little Danderrine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderrine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty soft hair and lots of it, try a small bottle of Knowledge's Danderrine for many dandruff or toilet counter for a few cents.

## RELY ON WILSON TO MAKE LEAGUE PLAIN

WASHINGTON, Feb. 20.—Wilson and not the senate will speak the words that will decide the American people for or against the league of nations in the opinion of Senate administration leaders. They refuse to worry over the attacks on the draft of the league constitution. They are in no hurry to reply to Senator Poincaré nor will they rush into the arena against the other critics who plan to hammer on the league daily from now on.

"President Wilson will make the chief speech to the great American jury," said Senator Lewis, Democratic whip. "The American people know they can rely on his being honest with them. If after hearing him they decide the league plan is evil they doubtless will express that view to congress without hesitation."

## TANKS GOING AFTER NEW CIVILIAN JOBS

LONDON, Jan. 20.—(By Mail) —The tanks are going after civilian jobs in the army of reconstruction. The tank idea, developed in the United States, is being abandoned in peace. Engineers are at work on designs for commercial highspeed tanks, or trucks with tank treads, and manufacture of these machines probably will keep the war tank factories running. The advantage of the caterpillar tread, used in tanks, include less wear and tear on roads, greater mud-navigation powers, and great hill climbing ability, it is claimed.

For the Children. Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effective in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.

Chronic Constipation. There are people who never have a movement of the bowels who are troubled by catarrh. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.

Periodic Bilious Attacks. Persons subject to periodic bilious attacks will observe that their appetite fails just before an attack. This is, they do not really crave food but eat because it is meal time. If they will eat only a light meal and be meat then take two of Chamberlain's Tablets the attack may be avoided.

## WOMAN'S CHARM

Woman's charm is her beauty. The care of the hair, face, scalp and hands, by proper methods is the only way to retain it. I know the best methods to shampoo the hair, treat the scalp, massage the face or dye fading hair any color by the Henna method. A trial will convince you. ## Would Have State Guarantee Bonds For Irrigation

SALEM, Feb. 21.—The state of Oregon will lend its credit to the development of irrigation districts within its borders if the action taken by the house can be regarded as indicating the sentiment of the voters of the state at large. By a unanimous vote Wednesday afternoon the house passed a joint resolution providing that the state should guarantee interest payments on irrigation bonds for the first five years.

Before these bonds can be issued, however, the projects must be inspected and approved by officials of the state. The measure must pass the senate and then receive the approval of the people before becoming operative. Twenty-four irrigation districts in the state are now ready to float bond issues as soon as market conditions are favorable, according to Representative Gallagher, author of the measure who stated that 55 or 59 other districts were being organized for development at this time. Under present conditions, he declared, irrigation districts were compelled to sell their bonds considerably below par because of the prejudice existing among bond buyers against these projects as sound financial investments. If the state lends its credit to the projects, it was explained, it would enable the districts to sell their bonds

## CASTORIA For Infants and Children In Use For Over 30 Years

Catarrh is a Real Enemy and Requires Vigorous Treatment. Do Not Neglect It. When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstoping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.
