zation of the city the Commercial Association faces a greater responsibility than ever in history. The club has real duties to face; duties that will require study, cooperation and consistent, intelligent attention to business. It would be desirable if possible to make the organization stronger than ever before. There was never a time when the association had such opportunities for service as now; there was never a time when efficiency in the organization was more needed than now.

Joy is the thought that the spirit at least can take
 The old things out and cast them away, and go
 Over the hills of a new-found purpose, and shake
 The wings of the glory of vision in dawn's clean glow
 Strength from the thought that we can always reach down and grasp
 The petty, mean things that hinder and balk our way,
 And sweep them aside as the new-found venture we clap
 And spin in the grooves of change to the sun-crowded day.

THE SUFFRAGE AMENDMENT

AMONG the measures killed by the filibuster in the senate in the closing hours of the sixty-fifth congress was the woman suffrage amendment. Approval of the necessary two-thirds, including many of the Southern senators.

The new amendment, identical with the original Susan B. Anthony proposal, excepting that it left to the states rather than to the federal government the authority to control elections within the states, was accepted by Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association, after its submission to her by Mrs. George Bass, chairman of the Woman's Bureau of the Democratic National Committee.

Senator Jones of New Mexico, the Democratic chairman of the senate committee on woman suffrage, succeeded in getting a favorable report from his committee on the resolution and made every effort to bring it to a vote. On the house side everything was in readiness to pass the resolution should the senate act. Speaker Champ Clark and Chairman Raker of the house suffrage committee said the lower branch would approve the amendment within an hour after receiving it.

Senator Wadsworth of New York and Senator Weeks of Massachusetts, both Republicans, however, blocked the efforts of Senator Jones to bring the resolution to a vote in the senate, and it died with other important legislation with the close of the session.

While we have this the Mississippi is having the biggest ice flood in years.

In his debate with Dr. Lowell, president of Harvard, Senator Lodge refused to say whether or not he would vote to ratify a League of Nations treaty even if the present draft is amended. Lodge is bent on criticism not construction.

It is announced that the British railroads are to be nationalized. In this country those who talk for continuous federal management of the roads are accused by standpaters of being bolsheviks.

If the war department moves swiftly in demobilizing the army it is criticized as heartlessly turning men loose when they have no jobs; if the department moves slowly in the matter of releasing men it is censured for needlessly delaying the return of men to civil life.

28 YEARS AGO

Senator and Mrs. W. F. Matlock returned on this morning's train from their visit in Portland and Salem. Baggage-master Phil Wild has been laid up for some time with an injured leg, caused by a fall from a truck. Mary Montgomery, Mary Laing and John McDougall have declared their intention of becoming citizens of the United States, renouncing allegiance to Queen Victoria.

Captain Thompson of the Oregon National Guards arrived this morning from The Dalles to muster in Pendleton's new militia company. A meeting will be held this evening at Wheeler's hall.

William Pearsall, of the round house force, is taking a furlough in order to nurse a badly mashed thumb which he secured in moving a snow plow from an engine.

THE FUNNYBONE

Avoiding Obscurity.
 "You don't always agree with other

members of your party."
 "No," replied Senator Sorghum. "Of course I'm open to argue it, but a man who never disagrees with anything is in great danger of being entirely overlooked.—From the Washington Star.

The Political Harassment.
 "Do you find public office an easy berth?"
 "I shouldn't exactly call it a 'berth,'" said Senator Sorghum, thoughtfully. "It's more like a hammock; hard to get into comfortably, and stiff harder to get out of gracefully.—Washington Star.

Teacher—Now, Spimmie, where does the gold come from?
 Tommie—Out of the ground.
 "Correct. And where do we get our coal from?"
 "Out of the ground."
 "Correct again. Where do we get our slate from?"
 "Out of the coal."—Yonkers Statesman.

Helping the Dry Movement.
 Yeast—I see several of our large stores are advertising big drives in towels.
 Crimshaw—Yes; it seems as though everybody's helping along this movement to make us dry.

RIFLE CLUB WILL ORGANIZE TONIGHT

All members of the Pendleton National Rifle Club and all others who shoot or who would like to learn to shoot are urged to meet at the city hall tonight. The rifles and ammunition, furnished free by the government, are already here, while the targets and other equipment is on the road. It is therefore hoped that active rifle practice can be taken up within the next few days. Returning soldiers are especially invited to attend. Some of the important business to be transacted this evening will be the election of officers and the selection of a rifle range. An examination will also be made of the new rifles to see why they would not fire when an effort was made recently to use them at a military funeral.

RAILROAD MEN GO OUT ON STRIKE

ATLANTA, Ga., March 21.—About 1,500 railroad clerks, employed on all lines entering Atlanta walked out today in a general strike in sympathy with the federal clerks of the Nashville, Chattanooga and St. Louis railroad. The strike began several days ago after a demand for dismissal of the federal auditors, whom they accused of unfairness in interpreting wage decision was refused.

FOR RHEUMATISM AGONY, LUMBAGO AND NEURALGIA

No Choking, Blinding Fumes Accompany Its Use—Contains Real Mustard.

The pain of rheumatism and gout—the swelling—the soreness—are relieved quicker by Bezy's Mustardine than by any liniment or plaster. When you begin to feel those occasional pains in the chest, with tightness, the best thing to do right away is to rub on Bezy's Mustardine. The chances are it will save you from pleurisy, bronchitis and perhaps pneumonia. Mustardine (Bezy's) is the original mustard preparation compounded to take the place of mustard plasters. It is better than any mustard plaster—far better—for it has twice the strength and can be kept on until all inflammation, soreness, aches and pains have disappeared. And it cannot blister—not even the tenderest skin. You ought to have a box of Bezy's Mustardine in the house, because it stops headache, earache, toothache and backache in half the time it takes ordinary remedies. It's simply wonderful how quickly it brings relief in neuralgia, neuritis, sciatica, lumbago. While for strains, sprains, sore muscles, cramps in legs, stiff neck, inflamed and frosted feet it is without an equal. A small box costs but a trifle and will do the work of 50 mustard plasters. Be sure it's Bezy's Mustardine—always in the yellow box.

SCHOOL BY DAY, DANCES AT NIGHT

Prim, demure school ma'am by day, zesty, zesty cabaret dancer at night.
 That's the double life that Mrs. Valerie Walker Marshall is living because a stingy school board doesn't find her enough money to properly support herself and her 16-month-old baby.

HUN DIGNITARIES LEARN NEW LESSON ON YANKEE WAYS

BY WEBB MILLER
 (United Press Staff Correspondent.)
 COBLENZ, Feb. 13.—(By Mail.)—The Prussian provincial and city authorities at Coblenz got an unpleasant surprise when they tried to equivocate with the American officers in charge of civil affairs. Now they are working in harmony and evidently with a wholesome respect for the straight from the shoulder methods of the Americans.
