FARIS, April 7.—When the "big four" resumed conferences here today a feeling of hope prevailed in American circles that the prediction of Lloyd George and Foreign Minister Pichon of an "Easter peace" will come true. Whether or not this is possible depends chiefly upon the British and the French. It is declared. The settlement has been delayed far beyond the American forecasts of March 26, 25 and April 1, obviously through no fault

PARIS, April 7.—The American peace delegation has evolved a definite Russian policy, it is learned, which will be submitted to the other allied delesations for ratification.

Recent United Press dispatches have disclosed the 'peace proposals' which Lenine submitted to the allies promising to discontinue bolsheviki propaganda and grant the anti-bolshevik district the right to self-determination in return for the withdrawal of armies and shipments of foods and raw materials.

The reported policy, it was said does not include recognition of the bolsheviki government but is such that Lenine is likely to accept it.
