

NEWS NOTES OF PENDLETON

Lands in New York

Lerman E. Preston, of Prosswater, landed yesterday in New York after service overseas. He is a member of the 91st Division.

Bond's Store Painted

Bond Brothers store front is receiving a coat of paint today. The woodwork of the exterior is being repainted in white.

Returns From Meeting

W. L. Thompson, state highway commissioner, and M. G. Bennett, assistant state highway engineer, returned this morning from Portland where they attended a meeting of the state highway commission.

Sales Benefit Red Cross

The treasury of the Clatsop County Red Cross was benefited today by the sale of a bag made by Mrs. Will Moore, and by the sale of an organ by the pupils of the Riverside Sunday school. Ed Morgan, of Riverside, was active in making the sale of the latter.

Proctor Statue Arrives

"The Pioneer," statue by A. Phinley Proctor, formerly of Pendleton, has arrived at the University of Oregon campus and will be set up immediately. The statue, which is of bronze and nine feet high, will be placed upon a large boulder from the McKenzie river and will be located mid-way between the library and

friendly hall, the men's dormitory. Joseph N. Teel gave the statue to the college in memory of his pioneer father.

Miss Straughan Has Good Record

Miss Marguerite Straughan, of Pendleton, who is a student at the University of Oregon, is among the 45 students who made an average of "superior" or above during the winter term, January to March. This makes Miss Straughan eligible for honor work.

Rudolph Probstel Lands

Rudolph Probstel, of Pendleton, who has been in France with Company M, 361st Infantry, 91st Division, landed yesterday in New York aboard the Edward Luckenbach. Probstel was the only Oregon man in the sick bay, as he is convalescing from a light attack of tonsillitis.

Moore Hall Being Improved

The Moore Hall, in the Matlock-Brownfield building, 515 Main street, is being renovated and repaired and the use of the building for the meeting place of several local lodges will be continued. This contradicts a report in Pendleton that the owners intended making the building into an apartment house.

Three Permits Issued

Permits issued by Acting City Recorder Beahn today included one for

a \$20,000 structure to be erected by Grimm, brothers on Webb street, installation of a boiler, engine and smokestack at the Troy laundry, to cost \$1400, and for repairs to a dwelling owned by Chester Planigan, the work to cost \$100.

Junior Team Wins

The junior relay team of the Pendleton high school won first place yesterday in the 440 yard relay, the time being 55 seconds. The sophomores were second, the seniors third and the freshmen last. Members of the winning team are Jack Beck, Theodore Straughan, Edward Thompson, and Edwin Kirtley. Each man ran 110 yards.

Tax On Candy Coming

May 1, 1919, will see a tax of one cent on every soft drink and ice cream dish sold by local and other confectioners in the United States that is sold for 10 cents or a fraction thereof. While Oregon confectioners are planning to fight the tax and ask for a repeal of the law, it is the opinion of local confectioners that the tax will go into effect and that prices will go up as a result.

Pendleton Sends Reply

Pendleton high school has sent in a reply to the questionnaire sent out by the physical training department of the University of Oregon relative to the state championship track meet, to be held in Eugene May 10. Pendleton's team and that of North Bend are mentioned as two of the most promising teams which have signified intention to enter.

Receive Penmanship Certificates

Thirteen Pendleton high school pupils have been awarded the Palmer Method penmanship certificates. They are Greta McHale, Lawrence Warner, Estella Mills, Evelyn Hurd, Carmen Jones, Evalyn Davis, Emily Doherty, Helen Mackenzie, Rachel Barnes, Marjorie Boyle, Ivan Houser, Edith Parker, Eva Beltz. A. C. Crews, instructor in penmanship, says he is highly pleased with the showing made by the students.

Joins J. H. Estes

G. Fay Hodges of Portland, became manager of the insurance business of J. H. Estes today and Mr. Estes will now devote the majority of his time to his real estate business. Mr. Hodges recently returned from France after serving 18 months there as a sergeant in the 10th Engineers, among the first 60,000 troops to go overseas in 1917. He was formerly in the insurance business in Sheridan, Oregon.

Crop Prospects Good

R. O. Earnheart, who returned this morning after a two month stay in Missouri, says that crop prospects are excellent in both Missouri and Kansas. Storms, he says, have somewhat delayed the planting of corn in that section, but not to any great extent. Mr. Earnheart's sister, Mrs. Vola La Hue, of Walla Walla, returned with him after being in Kansas City the past year. While away Mr. Earnheart had the smallpox.

Montana Crop Outlook Bright

Prospects in Montana for a record wheat crop are excellent, John Montgomery, local manager for the Farmers Union Grain Agency, said today following his return from an inspection of his property in the Judith basin country. The winter was mild and winter wheat came through in fine shape, the ground has plenty of moisture and the farmers all look for the best year in a decade. Mr. Montgomery was very pleased with what he saw on his own ranch and others in the same vicinity.

Divorces in Circuit Court

Ned William Harsche today filed suit in the circuit court to secure a divorce from Minnie Harsche, whom he married in Kanab, Idaho, in 1916. He charges gross immorality on the part of his wife and declares she is unfit to care for the children, Raymond Joseph, aged 8, and Margaret Ann, aged 8 months. Another suit for divorce filed is that of Cyril C. Conklin vs. Anna Conklin, who were married October 18, 1912. He charges desertion. There is one child, Grever, aged 4. Ethel Montague is seeking a divorce from John Montague, charging desertion. She asks for the custody of one child, Marjorie, aged 2.

WHY IS A FLY?

The first thing we must get clear in our heads is that we must not blame God for the fly, for man made him. He is not a dispensation of providence at all. He is the resurrection, the reincarnation of our own dirt and carelessness; He is merely one of our own unsanitary causes coming home to roost. He is absolutely the reincarnation of our own dirt. We feed him on the same things that we eat; for that matter we eat at the second table to him most of the time. He is the most affectionate and most intimate of our domestic animals.

What does the little busy fly? Much and all of it. We can blame anything on him we like and the probabilities are that it will be somewhere near true. He is the best and the most active advance agent of pestilence that we have. He goes about perpetually, a traveling man carrying samples of all kinds of pestilence and he has six legs and a dozen hairy grips on each leg in which he can carry complex, which he distributes lavishly everywhere.

Harmless little coyotes, who eat chiefly jack rabbits and mice, are warred upon by highly-paid experts to accomplish their destruction, and yet we provide places for the fly to breed and feed in.

We have not to clean up all outdoors. All we have to do is to clean up around our door yards and barn yards, and if we do that we shall be rid of it. The thing is perfectly practical.
